Introductory

HENDERSON'S Directory for the Province of Alberta is herewith presented. This work, after an interval of over four years, shows numerous changes, additions and increases, in keeping with the growth and progress of the Province.

This Directory contains a descriptive sketch of every City, Town, Village, Post Office, Railway Station and Settlement in Alberta, giving Location, Express and Railway connections, Banks and Telegraph offices and all information about their industrial and commercial enterprise and activity; also the names of all Business and Professional firms, corporation and commercial enterprises.

The Classified Section contains the names of all persons in the Province, engaged in any business or profession, together under one heading separated by towns, which are arranged in alphabetical order. This classified or buyers' guide constitutes an epitome of the business interests of the Province and also furnishes in this one volume lists of businesses not obtainable in any other medium issued. It offers the most economical and effective method of becoming acquainted with the trade to both buyer and seller.

The publishers desire to extend their thanks to the enterprising business men of Alberta whose patronage made possible the publication of this valuable work.

Very truly yours,

HENDERSON DIRECTORIES.

December 1928.

ATHABASKA

(Also spelled Athabasca.)
 a P.O. and terminus of the C.N.R. Athabaska branch, 95 miles north of Edmonton in Athabaska Prov. Elec. Div. Has C.N.R. agent. Telegraphs, Canadian Northern Express and Alberta Govt. Telephones. This is a well-timbered country and the advantages far exceed that of the prairie as a farming land because all fuel, fence posts, etc., do not have to be hauled any distance and the trees serve as a wind break. Crop failures have never been known here and the wheat and oats are of the highest quality. It is a common thing for oats to average 100 bushels and wheat 60 bushels to the acre. A few shallow wells have been sunk here and gas has been found but not in commercial quantities. Evidences of crude oil are plentiful, such as oil seepages, oil taste and oil scum on water. Sawmilling and railroad tie industries. Three elevators, stockyards. Considerable agricultural development surrounding the Town National Highway from Edmonton and the commencement of the Peace River Highway. Glass sands are found here in large quantities. Population 600.

BANFF

a P.O. and station in Calgary West Prov. Elec. Div. Is the largest town in the Rocky Mountains National Park of Canada and can be reached from Calgary by a first class motor road 85 miles in length or by main line of the Canadian Pacific Railway.

It is famous as a summer and winter resort, and is visited during a season by from 150,000 to 160,000 tourists from all parts of the world. Its resident population is approximately 2,500.

ATTRACTIVE—Among the varied and unequalled attractions at Banff are the famous Bow Falls, the Sulphur Cave, Sundance Canyon, the Bow and Spray Rivers. Mounts Cascade and Rundle, each over 9,000 feet in altitude and the hot sulphur water springs flowing from the base of Sulphur Mountain. The sulphur water flow is utilized by two large Government bathing establishments with a combined capacity of over 1,200 bathers per day.

Banff has undeniably become the Axis of the Winter Sports World, through the medium of its annual Winter Sports Carnival held in February. At this

internationally well known event, winter sports of every civilized nation are held: ski-ing, skating, ski-joring, tobogganing, hockey and others too numerous to mention.

Among the other attractions at Banff maintained by the Federal Government are the Zoo and Museum the animal enclosures where may be seen Buffalo, Rocky Mountain Goats and Sheep, Elk, Moose and Yak, and a beautifully located Golf Links open to the public for a nominal fee.

In addition to the main motor road running to Lake Louise—thirty-eight miles west—Banff is the hub of over thirty miles of roads to points of interest. Among these are Johnston Canyon, Lake Minnewanka, Mount Edith Pass and Vermillion Lakes, Tunnel Mountain, the Hoodoos and the Loop Drive.

The Bow River and Lake Minnewanka afford excellent boating facilities, and boats can be hired or the regular water trips taken.

Good fishing can be enjoyed in season at the numerous lakes and streams in the vicinity of the town.

The Golf Links, have one of the finest scenic settings to be found on the continent. They are situated about two miles from the town and within ten minutes walk of the C.P.R. Hotel. The many sporting features of the 18-hole course, appeal to all lovers of the game and lure enthusiasts to linger on indefinitely at Banff. A professional is in attendance throughout the season and clubs may be rented at the links. Afternoon tea is served at the clubhouse.

FACILITIES AND ACCOMMODATIONS—Banff has an excellent and extensive water and sewerage system, paved streets, electric power and telephone service, and a well-equipped private hospital.

It is well supplied with first class and up-to-date stores handling all commodities, several of which cater particularly to the visitor.

GARAGES—Several first class garages are available to the motorist

BASSANO

a P.O. and junction point in Bow Valley Prov. Elec. Div., on the main line of the C.P.R., 87 miles east of Calgary and 93 miles northwest of Medicine Hat. The town at present has approximately 1,000

people. It has a large public school, three churches, three benevolent societies, a very up-to-date agricultural society and a very modern hospital, fully equipped. New Masonic Temple including Community Hall. New Community Swimming Pool and a \$5,000 irrigation system for trees and gardens are being installed. The P.O. distributes to 44 sub-offices. The town is electric lighted, having a twenty-four hour service and has all the conveniences of a city, such as waterworks, sewerage, incinerator, disposal plant, telephones, etc. Bassano is headquarters of the supply department for the Dept. of Natural Resources of the C.P.R. for the eastern section of irrigation block. Bassano is a sub-judicial district and registration point with a resident deputy sheriff and deputy clerk. It is headquarters for the government school inspector, road inspector and veterinary. The city water supply is obtained from the Bow River, which is three miles southwest of town, where is situated one of the world's longest dams, 59 feet high and approximately 1½ miles long. This dam was built by the C.P.R. to supply the irrigation block east with water. The prospects for great development in the near future are bright for Bassano.

BLAIRMORE

a P.O. and station on S35 T7 R4 W5, in
MacLeod Prov. Elec. Div., on C.P.R. Crows
Nest line, 12 miles east of Crows Nest
and 27 west of Pincher Creek. The West
Can. Collieries Ltd. employ an average
of 475 miners and produce an average
of 2,000 tons of high grade bituminous
steam coal daily. Canada Cement Co.
own large cement plant and lime kilns.
Unlimited supply of raw materials close
at hand. The Sunburst Coal Co are de-
veloping large coal areas and are in-
stalling machinery. The McLaren Lum-
ber Co. operate a large saw-mill, manu-
facturing both lumber and lath, and
are doing an extensive logging business.
There is also a sash and door factory,
and the Blairmore Iron Works employ-
ing quite a large number of men. The
District Court House and Provincial
Police Barracks are located here. There
has also been recently established in
town a tourist camp site with water
and light and other conveniences. Blair-
more is the supply and distributing cen-
tre for a number of towns in the imme-
diate vicinity. Coal mining and lum-
bering are the principal industries. The
lighting system is the property of the
town and current is purchased from the
West Canadian Collieries Ltd., through
the East Kootenay Power Co. The mu-
nicipality operates the water system.
Population 2,300.

BOW ISLAND

a P.O. and town on S36 T10 R11 W4 in Medicine Hat Prov. Elec. Div., on C.P.R. Crow's Nest line, 40 miles southwest of Medicine Hat and 67 miles east of Lethbridge. Has C.P.R. teleg., local and long distance Govt. telephones. Heat and light for the residents is supplied by the municipally-owned natural gas well at 30 cents per thousand. There are 17 large gas wells north of the town from which gas has been piped as far northwest as Calgary, and southwest to Macleod. A good grade of domestic coal has been partially developed in various places in the immediate vicinity, from which the farmers secure their coal at \$3.00 per ton. Streets are well lighted by natural gas. Large brick public school 5 teachers employed. Resources: Farming, gas and coal. Population 400.

City of Calgary

NAMING OF CALGARY

Calgary is named after the old home of Colonel Macleod in the Isle of Mull, Scotland, and was so named in the year 1876 when he was in charge of the North West Mounted Police fort established at the confluence of the Bow and Elbow Rivers. The word "Calgary" is of Gaelic origin and means "Clear Running Water."

LOCALITY AND ADVANTAGES

The City of Calgary is the business centre of the Province of Alberta, and the largest and most important city between Winnipeg and Vancouver. Its location on the C. P. R. main line and C. N. R. line in the foothills of the Rocky Mountains, at the junction of the Bow and Elbow Rivers, is picturesque. By reason of its geographical situation, the abundant supply of pure water, the untold wealth of the surrounding country as yet only partially developed, and above all, by reason of its cheap electric power, the City offers most desirable inducements for the establishment of manufacturing industries. An extract from "Townsites of the North West Territories" reads as follows:

"At the junction of the rivers (Bow and Elbow) on Section 14, is the town of Calgary, which will soon become one of the most important places in the Northwest. Its geographical position, picturesque site, proximity to the Rocky Mountains, access to wood and timber by way of both rivers, and its ample supply of excellent water all contribute to this end. C. E. La Rue 1883."

In 1927 the city clerk's department estimated the population at 70,000. This year their estimate has been increased to 76,000. They estimate on a basis of from 4 to 4.5 persons to a household.

The business section and part of the residential district has spread over the valley which was the original townsite, and has expanded over the surrounding heights from which views of the Rocky Mountains are obtainable. Calgary is approximately 840 miles west of Winnipeg, 620 miles east of Vancouver, 138 miles north of the boundary line between Canada and the United States of America, and 85 miles from Banff, "The Playground of Canada."

TO TOURISTS AND VISITORS

Calgary offers much of interest to visitors. Perhaps no city of its size on this continent possesses such fine business buildings or a larger number of comfortable and beautiful homes. It offers every facility for business or amusement that can be found in much larger cities wherever they may be.

In addition to the Hotel Palliser, one of the finest hostelrys on the continent, there are many other first class hotels, with rates to suit all purses. Unusual shopping facilities exist and several beautiful modern theatres provide the best there is in drama, vaudeville and pictures.

A drive about the City will be found of interest, and the residential districts on both the north and south hills should be included, as from them a magnificent view on a clear day can be obtained of the Rockies. The Sarcee Indian Reservation adjoining the city on the south-

west provides an interesting drive. St. George's Island and Bowness Parks are specially worthy of a visit.

For the sportsman there is, in season, shooting for duck, chicken and partridge, as well as mountain trout fishing, all within a few hours' drive from the city.

Calgary is at the gateway of the Canadian National Park and an extremely interesting and picturesque motor drive of about four hours will take one to Banff (85 miles distant). Lake Louise and the Rockies are also available by motor car. The Banff-Windermere Road is now completed and links up with the Grand Circle Tour (Blue Trail), which connects all the scenic attractions in Western America; passing from Calgary south through Glacier Park (Montana), Yellowstone Park, Grand Canyon (Arizona), Los Angeles and then north through San Francisco, Crater Lake Park, Spokane, Columbia River, Valley (Windermere), and Banff, east to Calgary.

The Calgary Automobile Camp provides free camping facilities, such as water, light, fuel, lavatories and fireplaces. A caretaker, sworn also as a constable, is on duty at the camp entrance for the purpose of safeguarding tourists' property which they may temporarily leave at this camping place. It is located on St. Patrick's Island, access to which is via St. George's Island Park, near the centre of the City. To reach the camp, proceed on Ninth Avenue to Twelfth Street East, then north on this street and cross bridge to Park. Follow signs to camping ground. Caretaker constantly in charge. Visiting motorists are cordially invited to make use of this camp.

Calgary Automobile Club for touring information or other assistance, visiting motorists are requested to call at the Club headquarters, Centre Street corner Sixth Avenue.

The Calgary Board of Trade maintains offices in the Loughheed Building, corner First Street West and Sixth Avenue, and the staff are always pleased to answer questions in regard to the city or country, and its many opportunities. Club rooms are maintained by the Board in the same building, to which all visiting business men are cordially welcome.

Rotary, Kiwanis and Gyro Clubs welcome out of town members at the Palliser Hotel: Tuesday for the Rotarians, Thursday for the Kiwanians and Thursday at Palliser Sun Room for the Gyros. All prominent fraternal organizations are represented in Calgary.

Golf and Country Clubs offer special facilities to those interested in outdoor sport.

The Municipal Golf Club is located in Shaganappi Park, and can be reached by the Killarney Electric Car Line or by motoring along the South Banff Road. It is about four miles from the centre of the city. Visitors are permitted use of the links by applying to the caretaker; fees, 35 cents per game.

Regal Golf Club is a 5,935 yard golf course, situated in the N.E. section of the city. A hilly course, rich in turf with a creek running through it, which adds to the "sportiness" of the course. There is also a ladies' course (nine

hole). Four street cars will take you within 3 minutes of the club house—two Crescent Heights, two Tuxedo Park. Membership fee: Gentlemen, \$15.00 per year; ladies, \$7.50 per year.

OIL AND GAS FIELD

The Turner Valley Gas and Oil Field, in process of development, contains several wells producing gas and oil. Gasoline is extracted from the wet gas, and some of the gas, after treatment, is piped to Calgary for domestic uses. The world's greatest gasoline well, "Royalite No. 4," producing approximately \$1,500,000.00 annually, is located in the Turner Valley.

This field is within easy reach of Calgary and offers a fine auto trip.

OIL REFINERY

The Imperial Oil Limited has erected, at a cost of \$4,000,000, a very large modern oil refinery in Calgary, situated in the Ogden district. This plant is worthy of a visit.

Spillers Canadian Milling Co., Ltd., have their 2,000 barrel "Daylight" Flour Mill completed. Storage, 500,000 bushels.

RESOURCES

Tributary to Calgary is a most prosperous agricultural, beef raising and ranching districts in area some thousands of square miles, and by virtue of the nutritious and abundant grasses growing throughout the surrounding territory, cattle raised in this locality are of the best; and by reason of its favorable climate and fertility of the soil, grain and vegetables produced in this district are excellent.

IRRIGATION AND FARMING

Calgary is the headquarters of one of the largest irrigation projects in the world. Water for irrigating the fertile belt stretching from Calgary north, east and south, is obtained from the Bow River. The head-gates of the main canal are located inside the eastern city limits.

In the agricultural world Calgary, being the centre of thousands of acres of both irrigated and non-irrigated lands famous for spring, fall and winter grains of all kinds, vegetables and wild and cultivated grasses, is highly attractive to prospective settlers and investors. As a direct result of this location and the productivity of the surrounding areas, a "Grain" or "Stock" Exchange and a large stockyard and packing plant were established some years ago. Calgary's importance as a grain centre has been officially recognized by the Government of the Dominion of Canada and the said Government has built a terminal elevator in this city.

MINERALS, ETC.

Untold mineral wealth underlays the soil, waiting for time and invested capital ere an idea can be conceived as to the intrinsic value and the benefits which accrue to Calgary, Canada and the British Empire therefrom. Chief among the minerals and other products of the lower strata of the earth, found in the Calgary district are iron, lead, coal (bituminous, lignite, anthracite and coking), silicate sandstone, brick clay and shale, pottery clay, fire clay, etc. Oil of a high grade was, on October 7th, 1913, struck at a depth of 1,562 feet in a well on Section 6, Township 20, Range 2, West of the 5th Meridian, and now known as "Discovery Well" and since, in fairly good quantities in several other wells. Natural gas is also obtained from these wells, and when treated yields gasoline in payable quantities. The gas (after the gasoline has been extracted) is now "piped" to Calgary

gas consumers. The field is now in active process of development, each year seeing more wells being sunk and new areas proven.

INDUSTRIES

The chief industries located in Calgary and district are: Ranching, farming, meat packing and meat products, oil refinery, manufacture of flour, biscuits, breakfast foods, breweries, temperance drinks, cement and cement blocks, rough and finished lumber, wood-working plants, sash and door mills, beds and mattresses, saddlery and leather goods, show cases, tents, confectionery, cigars, soap and similar commodities, ironworks, machine shops and welding, C. P. R. repair shops for western division, liquid air plant, brick-yards, bakeries, dairies and butter, etc., stockyards, tannery, headquarters of coal companies, headquarters in province for insurance companies, horticultural, box factory, Ford assembly plant, automobile repair shops.

HOSPITALS

The General Hospital, instituted October, 1890, incorporated November, 1890; present hospital opened February 1st 1910, with approximately 200 beds present capacity. Prior to April, 1919, it was under the control of a private Board but it is now administered by the City, together with hospitals for the following: Smallpox (12 beds), Isolation (75 beds).

There are in addition to those above mentioned a number of privately owned hospitals and nursing homes, the chief of which is the Holy Cross Hospital.

Mountainview Hospital—Chronic tuberculosis, Sixteenth Avenue N. E.

Smallpox Hospital—Sixteenth Avenue N. E.

Isolation Hospital—Contagious disease, Twelfth Avenue and Sixth Street East.

Finances are obtained from city taxation, certain provincial government grants and patients' fees.

The government grants for 1926 to municipal hospitals totalled \$29,644.00

The Dominion Government completed and opened in the year 1920 a large modern sanatorium for the treatment of incipient tuberculosis cases.

In July 1925, the Alberta Provincial Government assumed full control of this institution, which is situated within a short distance of the Bowness line of the Municipal Street Railway at Keith, 7 miles west of the city. It was originally designed to care for returned soldiers, but has so developed that civilians are now also treated.

LIBRARY

Those of our citizens possessing literary tastes may, on becoming members of the Calgary Public Library have access to various works of literature by the World's best authors.

MUNICIPAL OWNERSHIP

Calgary is essentially a City owned and operated for its citizens' benefit through their elected representatives, and owing to this fact its inhabitants enjoy an excellent service from the various municipal undertakings. Commencing in the year 1899, the City purchased the existing Waterworks system. Since that time the Public Utilities of the City have been extended to include Electric Light and Power, and Street Railways systems.

Calgary has clean and well paved thoroughfares, beautiful residential districts, and business buildings, giving remarkable evidence of substantial growth. Municipally-owned utilities—particulars of which may be found in this publication—educational buildings,

school system, and above all, its healthy climate.

BRIDGES

A modern reinforced concrete bridge spans the Bow River at Centre Street, Calgary, and bridges of similar construction cross the Elbow at Fourth Street West, and the Bow River at Ninth Street West.

METHOD OF CIVIC GOVERNMENT

The "Initiative, Referendum and Recall" is in operation in Calgary. By this means legislation may be initiated by the ratepayers, a referendum demanded on any public question or policy and elected officials recalled. To invoke these powers it is necessary to obtain the signature of qualified voters, equal in number to those cast at the last election for mayor in the following percentages: For "Initiative" or "Referendum," 10 per cent; for "Recall," 25 per cent.

The government of the City is carried on under powers granted by the Legislative Assembly of the North West Territories, and amendments thereto from said body, and later from the Provincial Legislature of Alberta. The Council is composed of a mayor and 12 aldermen. Up to the end of the year 1923 the mayor was elected annually. At the Civic election held in December, 1923, the electors carried a plebiscite to provide for the election of mayor for a term of two years, said provision to become effective January 1st, 1924.

CONTINUITY OF COUNCIL, ETC.

In order that some members of each year's council may be on intimate terms with the city's business, the aldermen are now elected from the city at large to a two-year term of office, six aldermen retiring, in the ordinary course of events, on December 31st, of each year. The transition from one to a two-year term of office was accomplished in December, 1918.

A commissioner is elected on a vote of the electorate of the city to hold office for a term of two years. The public and separate school trustees are also elected annually from a vote of the entire city, the number of members to be elected each year being determined by vacancies on the respective boards. The number of members composing the Public School Board is 7 and the Separate School Board 5.

QUALIFICATIONS FOR MAYOR, ETC.

The mayor is the chief magistrate of the City. Persons eligible for election as Mayor, Commissioner, Aldermen, Public or Separate School Trustee must be British subjects, qualified electors of the City, male or female, of the full age of 21 years, and who are not disqualified under the ordinances incorporating the City of Calgary.

ELECTIONS, NOMINATIONS AND VOTING

All elected Officials of the City of Calgary are elected by the system of "Proportional Representation with the Single Transferable Vote," generally known as "The Hare System," which was finally adopted and put into operation by the City in the year 1917.

The nominations are held annually on the first Monday in December, and the election on the second Wednesday following. The hours of polling are from 9 a.m. to 8 p.m. and "the persons qualified to vote in the above connection are those persons, male or female, 21 years of age or over, whose names appear on last revised assessment role, or resident British subjects, or tenants, male or female, 21 years of age or over,

who have resided continuously in the City for at least six months prior to the 1st of June in the year the voters' list is being prepared, and who register during the month of June or July in each year their names at the City Clerk's Office." The first two weeks in October are also set apart as a final period for Registration and Revision of the Voters' List. If registered British subjects or registered tenants vote at an election their names are added to the Voters' List for the year following such election. Qualifications for voting on by-laws, same as above, but owners of real property only, whose names appear on the last Revised Assessment Roll assessed for real property to the value of \$100.00 or more.

COUNCIL'S DUTIES

The Council as a whole is the legislative body and carries on the legislative work through standing committees in the usual way.

COMMISSIONERS' DUTIES

The Board of Commissioners, consisting of the Mayor and one other Commissioner, is the executive body and as such regulates and supervises expenditures, directs and controls departments, Comptroller excepted, prepares specifications and estimates, advertises for tenders for work, materials and supplies required, inspects and reports to the Council on the municipal work being carried on or in progress within the City; administers the affairs of the City, except schools.

The Aldermen receive no remuneration for their services, the electorate refusing to authorize the same, but the Mayor and Commissioner receive a salary of \$5,000 and \$4,000 per annum respectively for the year 1928.

Calgary's form of municipal government (Commission with Council) has proven in this city of large municipally-owned undertakings to be a safe and sane method of administering the community's affairs. The Commissioners cannot legally act on important questions, or incur expenditures over \$500.00 before submitting the facts, policies and recommendations to and receiving the Council's instructions.

The Commission form of Government had its inception, in so far as Calgary is concerned, in 1907, the Commission then consisting of the Mayor, City Clerk and City Engineer, said Board being appointed by the City Council. After a brief trial this Board was found to be unsatisfactory, as no matter what good policies the board might institute or desire to initiate, at least two of the members were not in a position to uphold their policies against possible opposition.

The afore-described Board was supplanted in 1908 by a Commission consisting of the Mayor (chairman) and two Commissioners, the latter two appointed by the Council. Our citizens deemed it their privileges to say as to whom should administer civic affairs and the Council adopted the policy of holding a plebiscite, the two names submitted for the office of Commissioners and receiving the highest number of votes to be appointed by the Council. This method in 1913 gave way to straight election of Commissioners.

The electors in December, 1918 declared by a large majority to retain the present form of Municipal Government, and in December 1921, to be in favor of reducing the commissioners to two, one of whom is the Mayor. This change became effective on January 1st, 1923.

ASSESSMENT, TAXES, BOARD OF REVISION, 1927

General Assessment Rolls are compiled in the fall of each year for use after confirmation by the Board of Revision for taxation purposes, etc., during the following year. The Assessment Roll is completed and notices mailed on October 31st preceding the year in which such roll is to be used.

The Board of Revision consists of three members appointed by by-law of the City Council and sits each year to hear appeals against assessment or non-assessment and to revise and confirm the assessment roll. Appeals against assessment or non-assessment must be in the hands of the City Assessor at least five days before the first meeting of the Board of Revision. The Board of Revision on real property assessment usually sits on or about December 12th, and on business assessments on January 21st.

In 1922 the City secured Charter Provision whereby the Council may by by-law provide that the valuation for any year shall so stand for two years. Any person in each year shall have the right to appeal from the Assessor's valuation to the Court of Revision and to the Judge of the District Court in the manner provided for in the City Charter, but no person shall be entitled to succeed upon appeal in the second or succeeding year unless he can prove to the satisfaction of the Court of Revision or the Judge of the District Court that his property has deteriorated in value since the first or preceding year; provided that there shall be no restriction of appeal or the right to succeed upon appeal in the case of any person the valuation of whose property has been revised, altered, amended or increased nor in the case of any property where there has been a change of ownership and the assessed owner whose name appears on the roll in the second or succeeding year had no right of appeal in the first or preceding year.

On purchasing property you should appear at the Assessor's office and present for his information the Agreement of Sale or title. If a non-resident, write the Assessor.

REAL PROPERTY (General Tax)

After the assessment roll for real property is finally revised and confirmed, usually in December of each year, and the estimated net expenditure to be raised by the general tax is fixed by Council, the tax (mill rate) is struck as follows:

Estimated expenditure (less utilities and revenues from sources other than the general tax) multiplied by 1,000 divided by real property assessment (including special franchise and excluding business tax assessment, equals No. of mills constituting the tax rate. (A mill is \$.001).

Each dollar assessed and taxed on the "Real Property" tax rate must pay the mill rate as above determined, except on parcels, of 10 acres and over, situated in the outer area, when a tax rate of 20 mills is levied.

The Council by Bylaw fixes the dates up to which certain penalties on General and Special Taxes shall be imposed. For 1928 it is proposed that taxes paid on or before June 20th shall be free from any penalty. From June 21st the following penalties shall be imposed:

June 21st to Aug. 1st 5 per cent.
Aug. 2nd to Sept. 30th .. 6 per cent.
Oct. 1st to Dec. 31st 7 per cent.
Jan. 1st, 1928, and until paid .. 2-3rds of 1 per cent. monthly on the accumulated amount of taxes and interest.

Advance payments on account of tax-

es for the year 1928 will be accepted after January 2nd, 1928, and interest at the rate of 5 per cent. per annum up to June 1st, 1928, will be allowed on all such payments made before May 1st.

Tax notices, giving details of the mill rate, general and special taxes due, arrears, penalties, etc., are then mailed. Taxes are due on the first legal day of the year current with their demand.

"Special taxes" are invariably "Local Improvement" and "Frontage taxes," such as for sewers, paving, sidewalks, boulevards, curb and gutter, grading, gravelling, water mains, the cost of which is chiefly borne by the properties fronting or the district benefitted. The Provincial Tax is levied by the Province of Alberta on land value only.

BUSINESS ASSESSMENT AND TAX

The Business tax first became operative in 1916 and the provisions governing have been amended as necessary from time to time. All businesses, trades, profession, etc., must be assessed each year for a sum equal to the full annual rental of their business premises, whether land or buildings or both, provided, however, that if such assessment is not equal to those of surrounding similar places and businesses, the assessment may be raised or lowered to make all assessments affected equitable. Assessment notices are mailed December 31st. After the Business tax roll has been revised and confirmed and the Council has set the rate and discount periods, tax notices demanding payment of the Business tax, giving particulars of the amount due, discounts, etc., are mailed. A discount of 3 per cent. is allowed if paid before March 31st. Distress warrants may be issued if taxes are unpaid by April 15th. The tax rate on all business is 10 per cent of assessed rental value. As license fees are now based on the cost of supervision by the City, no rebate is given off business tax on account of any license fee paid to the City.

TAX RECOVERY

The existing laws concerning unpaid taxes are briefly as follows:

1. Not later than November 14th of the year following the tax levy, if taxes are unpaid the City must file in the Land Titles Office a caveat against all properties so in arrears.

2. If any parcel of land is not redeemed before the 15th day of December in the calendar year next following the year in which caveat has been filed, the City applies for, and the Registrar of Land Titles issues, a new certificate of title in the name of the City.

3. After securing title the City must, within one year, offer for sale at public auction the land or lands for which title was so obtained.

4. If the property is not sold at such auction, the title remains in the name of the City, but must be sold at the earliest possible opportunity by private sale.

TAX EXEMPTIONS

The Dominion and Provincial Government, Public and Separate School Boards, Incorporated Colleges, (on lands and buildings used for school purposes), Church buildings and Church lands (up to one-half acre); all are exempt from General taxes but are liable for Local Improvement taxes.

VOTERS' LISTS

The fact that you have paid taxes does not qualify you for a vote. See that your name appears on the Voters' List to be seen in the City Clerk's office. This matter should be attended to not later than the last legal day of July in any year. An elector is entitled to vote once only at any election on the same

question, and must vote at the booth noted on the Voters' List for each elector. Only qualified electors whose addresses are given as in Calgary, are entered on the Voters' List. A qualified non-resident voter who is in the City on election day and wishes to vote must apply in person at the Assessor's office for a certificate.

MUNICIPALLY-OWNED INDUSTRIAL SITES

Calgary offers to manufacturers industrial sites owned by the Corporation at the cost price. These are located in various parts of the City and the first were purchased in 1911 to provide for industrial development.

"Manchester," within the southern limits of the City, situated on the Calgary-Lethbridge branch of the C. P. R. is offered manufacturers desirous of locating in Calgary, on the following terms:—

Street cars, sewer, water and electric light and power are extended to and in use in "Manchester." This property is approximately two and one half miles from the Post Office. Applications for sites should be addressed to the City Clerk.

1. Cost price, \$1,200.00 per acre; one-third cash, the balance in equal instalments divided over a term agreeable to the purchaser, up to six years, with interest at 6 per cent., payable annually.

2. (a) The purchaser or purchasers must agree that all buildings erected on land bought by them shall conform to the requirements of the second-class fire limits of the City.

2. (b) To use the land for 10 years from the date of purchase for manufacturing purposes only, and after 10 years for the same purpose until otherwise allowed by by-law of the City of Calgary.

2. (c) To begin building operations on the land purchased within six months from the date of purchase and to complete the buildings within a reasonable time, and if the purchaser or purchasers fail to carry out this provision the agreement shall be void and the land revert to the City.

2. (d) That he or they shall not assign or sublet without the consent of the Council of the City of Calgary.

2. (e) To pay the City of Calgary its proportionate share of the rental of the main spur or spurs constructed to serve the subdivision.

Two miles east of the City limits and about five miles from the Post Office lay other industrial sites. This property is served by the Canadian National Railroads.

The City also owns several blocks of land in the subdivision known as Calgary Junction.

Another site within easy reach lies about two miles northeast of the Post Office. The Calgary-Edmonton branch of the C. P. R. runs through this property.

The City has power to exempt from taxation buildings, improvements, machinery and stock being used on said land subject to a by-law providing for such limited assessments and exemptions being ratified by the people as in the case of a money by-law.

The above clause does not mean that the industrial concerns are exempt from Local Improvement taxation.

If the aforesaid lands, buildings, stock or improvements cease to be used or occupied for the purposes aforementioned such land, etc., so ceasing to be used or occupied shall be liable to taxation in the usual manner.

Further information in respect to the above will be gladly furnished by the City Clerk.

POLICE HEADQUARTERS

As a result of the rapid growth and development of Calgary, and the corresponding increased volume of civic business, it has been necessary to erect in close proximity to the City Hall, a modern fireproof construction, consisting of reinforced concrete framework and floors, and brick filling with stone trimmings, to be used as a Police Headquarters, and for other civic departments. This building was completed on August 31, 1914.

DOMINION GOVERNMENT ELEVATORS

Calgary, Alberta

Office—East Calgary.

Manager—S. C. Brown

The Canadian Government Elevator at Calgary is a reinforced concrete terminal elevator of 2,500,000 bushel capacity. This interior terminal elevator, together with similar elevator of 3,500,000 bushels capacity each, at Saskatoon and Moose Jaw, Sask., were constructed by the Board of Grain Commissioners for Canada to operate in conjunction with the Board's Lake Terminal Elevator at Port Arthur, Ont., and with the Board's Ocean Terminals at Vancouver, B.C. The purpose of the Calgary elevator is to provide storage and cleaning facilities for grain grown in the Province of Alberta, and to act as a reservoir for shipments to the East via the Great Lakes, or more especially for shipments westward to Vancouver, where it may enter the trade routes of the Pacific, or of the Atlantic via the Panama Canal.

The Calgary elevator will be a great boon to the farmer during a period of congestion in transportation and, possessing as it does the most up-to-date facilities for treating damaged grain, will prevent grain going out of condition on account of excess moisture while in transit.

The plant consists of the following units, all of reinforced concrete construction and absolutely fireproof:—

(1) The work house is known as a 13-leg house with storing capacity of 500,000 bushels, capable of handling 90 cars in and 90 cars out per day.

(2) A storage house of 56 circular bins 23 feet 2 inches in diameter, and 92 feet high, with a capacity, including the interspace bins of 2,000,000 bushels.

(3) Two drying plants fitted with the most modern type of Morris drier with a combined drying capacity of 60,000 bushels per day of 24 hours. The heating factor in these plants is two 100 h.p. marine type boilers and one 200 h.p. return tubular boiler located in a special building.

The elevator is electrically driven power being supplied by the City of Calgary at 12,000 volts and reduced in the elevator sub-station to 550 volts for power purposes and 110 volts for lighting. A separate motor drives each machine, 53 motors being required to run the plant.

A Cyclone Dust Collector system is employed to remove the dust and floor sweepings, and a compressed air system for blowing dust from motors is also part of the elevator equipment.

The elevator is especially well equipped for cleaning grain, its cleaning equipment consisting of 10 receiving separators, each with a capacity of 1,000 bushels per hour, or a small carload; two ax separators; two wheat and oat separators, and a screening separator.

These machines provide for all ordinary separations as well as for cleaning seed grain.

A screening grinder of large capacity is installed for grinding elevator screenings for stock feed purposes. All grain received and loaded is weighed in Hopper scales located in the warehouse cupola; six in number, are installed, each with a capacity of 2,000 bushels, or 120,000 pounds.

The elevator is connected by a direct spur track to the C.P.R. and Canadian National Railways by transfer connections. Ample trackage is provided on the Government property for unloading and sorting cars. The Government own trackage which is approximately three miles, and has accommodation for 350 cars.

The total cost of the Calgary elevator was approximately One Million Dollars.

PUBLIC PARKS

There are now 25 Public Parks in Calgary, with an area of about 777.20 acres, valued approximately at \$2,262,009.25. These parks are situated in various parts of the City.

Park Superintendent—W. R. Reader

Bankview Park—Area 3 acres. (Undeveloped)

Bowness Park—About 4 miles west of city limits. Area 80 acres

Capitol Hill Park—Area 4 acres

Central Park—13th Ave. W. and 12th Ave. W., bet. 2nd and 4th Sts. Area 4.42 acres

Crescent Heights Park—Area 4 acres

Crescent Park—Bet. 2nd and 3rd Sts. and 8th and 12th Aves. N. W. Area 15 acres

East Calgary Park—East Calgary. Area 5 acres

Elbow Boulevard Park—Near the banks of the Elbow River. Area 3 acres.

Glengarry Park—Area 4 acres. (Undeveloped)

Hillhurst Athletic Park—Bounded by 12th St., 14th St. and 5th Ave. N. W. Area 6.43 acres

Hudson's Bay Athletic Grounds—Parkdale Addition

Mewata Park—Bet. Bow River and 6th and 7th Aves., and 11th and 12th Sts., W. Area 33 acres

Millican Estate Park—Area 15 acres. (Undeveloped)

Mission Park—Area 3¼ acres. (Undeveloped)

Mount Pleasant Park — On crest of North Hill, east of Centre St. bridge Area 6 acres

Reservoir Park—3 miles from P. O. Area 83 acres.

Riley Park—Bounded by 5th Ave., 6th Ave., 10th St. and 12th St. N.W., facing Morley Trail. Area 20 acres.

Rosevale Park—On banks of Elbow River, in Elbow Park. Area 4½ acres.

St. George's Island Park—Island on Bow River approached from 9th Ave. and 11th St., East Calgary. Area 45 acres.

Shaganappi Park—West end of city, from 26th St. (Killarney). Area 147.19 acres.

Shouldice Park—On Bow River, two miles west of city limits. Area 100 acres.

South Calgary—Athletic Park—Area 6¾ acres.

Stanley Park—Area 39 acres. (In course of development)

Tuxedo Park—Situate in Tuxedo Subdivision. Area 6.10 acres.

Victoria Park—e.s. 2nd St. E. and 17th Ave. Area 103½ acres.

Walker Estate Park—Area 3 acres. (Undeveloped)

SWIMMING POOLS

New Crystal Swimming Pool—928 4th Ave. W.

PUBLIC LIBRARY

Central Library—2nd St. W. and 12th Ave.

Secretary-Treasurer and Librarian—Alexander Calhoun, M.A.

Hours of Opening

Week days: 9 a.m. to 9.30 p.m. (9 p.m. April to September), Wednesdays, 9 a.m. to 1 p.m.

Sundays: 2 p.m. to 6 p.m.

The Library is closed on Victoria Day, Dominion Day, Labor Day, Christmas Day, New Year's Day, Good Friday and Thanksgiving Day.

Membership Privileges

Any Citizen of Calgary is entitled to a free membership on signing application card, proving his address and furnishing the names of two friends.

History

It is about nineteen years since a little group of Calgary citizens began to interest themselves in securing for Calgary a Public Library. Calgary was at that time a city of only about 15,000, and it took time for the scheme to mature. However, in 1903, a Library Board was formed; in 1909 the building was begun, and on January 2nd, 1912, it was opened to the public.

The building and equipment has cost \$100,000.00. Of this sum \$80,000.00 was provided by the late Sir Andrew Carnegie and 20,000.00 by the City Council.

It is noteworthy that this Library was the first public library in Alberta and the second between Winnipeg and the Rockies.

Constitution

The Calgary Public Library is administered by a Library Board of seven members, the Mayor being an ex-officio member, and the remaining six being appointed by the City Council for two years.

The Library is organized under the Provincial Libraries' Act, which empowers the City to levy a library rate not exceeding one mill on the dollar on all assessable property.

Crescent Heights Branch

The library has one branch at 1806 First Street N.W.

Royal Circulating Library

615, 109 8th Ave. E.

CALGARY MUNICIPAL STREET RAILWAY

(Operated by the City Commissioners)
Offices and Car Sheds—2nd St. E. bet.
Victoria Park and Elbow River.

Superintendent—R. A. Brown

The City of Calgary on July 5th, 1909, with 35,000 population, successfully inaugurated a municipally-owned and operated modern street railway system.

A \$250,000.00 by-law was passed in 1907 and one for \$226,000.00 in 1909, providing for the building, etc., of the street railway system.

With twelve modern pay-as-you-enter cars the first six months' operations returned operation and interest charge and \$10,000.00 surplus for contingent account.

Construction was begun in September, 1908, and one-half mile of track was laid that fall. On May 1st, 1909, work was recommenced. The power generator arrived July 1st, and the first two cars on July 2nd. The Railway officially opened at 8 p.m. July 5th, 1909, with two cars covering the half-mile between City and Fair Grounds.

During Fair Week 35,460 passengers were carried.

Work was carried on by five paving contractors, one track construction company (on unpaved sections only), the City doing all special and over-head work and intersections.

One-man cars were introduced on all city lines in 1917, and are proving satisfactory. Safety of operation is secured, together with a substantial decrease in the cost of operation.

All the line feeders within the business area have been placed underground.

At present power is supplied by four substations with two 500 k.w. direct driven steam units as an auxiliary, and

one 300 k.w. and three 1,500 k.w. motor generators.

The Power Department of the City charges the Street Railway for power as follows: .85 of 1c. per k.w. hour for first 400,000 k.w. hours; all over 400,000, ¾c per k.w. hour; \$1,878.75 per month overhead charges.

Fares

Five classes of tickets are used:—"School," good to and from school for students up to 17 years of age and any time for children up to 14 years of age, 10 for 25c; "Ordinary," 18 for \$1.00; 4 for 25c; 2 for 15c; and pads of civic employees tickets, 18 for \$1.00, the latter are charged to the departments in which they are used.

CEMETERIES

Burnsland Cemetery—Adjoining Union Cemetery on east side of Macleod Trail

Chinese Cemetery—Adjoining Union Cemetery south of Elbow River over Victoria Bridge

CALLING LAKE

a P.O. and settlement in S20 T72 R21 W4, in Athabasca Prov. Elec. Div., 40 miles north of Athabasca on the C.N.R., the railway, telegraph point and business centre, from whence there is stage connection. Has tel. connection with Athabasca, public school. Fishing, farming, stock-raising and fur trapping. The winter fishing industry is carried on at Calling Lake each winter season Dec. 1st until Feb 15th. The lake has an unusual out put of 150,000 lbs of Whitefish and Pickerel each winter. This production is shipped annually to New York City unfrozen by express. Population 150, with 40 farmers in the vicinity. Thousands of acres awaiting the settler. Land from \$10 to \$50 per acre.

CARBON

a P. O. and village on S15 T29 R23 W4, in Bow River Prov. Elec. Div., situated about 70 miles northeast of Calgary and about 20 miles west of Drumheller on the Acme-Empress branch of the C. P.R. On account of its location Carbon is bound to be the most important point on this new line. The village is situated in the centre of a rich farming district especially adapted to raising wheat and also suitable for mixed farming. The Carbon coal fields are famous in southern Alberta as coal was hauled from Carbon to Calgary long before other fields were developed. Owing to the lack of transportation facilities, coal mining in the district in recent years has been only for the purpose of local trade, but now that the railroad is completed mines are opening up all along the line. Carbon district is also favored with other natural resources such as deposits of clay tested suitable for fire bricks and face bricks. Has Presbyterian and Plymouth Brethren Catholic Churches. The financial condition of the village is good, there being no debt on either the village or the School District of Carbon. The tax rate is comparatively low and fuel is cheap. There is also an abundance of good water and electric power furnished from Drumheller Union Power Co. Up to the 12th grade taught in school, staff of 4 teachers. The population of the village is about 550. Alta Govt Tels May D Williams agt. Alta Pacific Grain Co Ltd Gerald F McGregor mgr

CARDSTON

Cardston is an incorporated town of some 2100 population located on S9 T3 R15 W4, in Lethbridge Prov. Elec. Div., on the Lethbridge-Cardston Br., of the C.P.R., 67 miles southwest of Lethbridge (56 miles by automobile), 13 miles north of the Montana boundary, and 24 miles east of Waterton Lakes Park and 28 miles North of Glacier Park, Montana on Blue Trail and Waterton Park Trail, both standard gravelled roads in southwestern Alberta. It is on the crossroads for three National Parks, viz., Waterton Lakes on the west, Banff lies within 246 miles north, and Glacier National Park 28 miles south. It is strategically located so that all traffic from Glacier Park, directly north to Banff, and Waterton Lakes Park passes through Cardston. From east to west all traffic from Waterton Lakes Park from the Can. side to Glacier National Park in Montana, passes through Cardston because of good roads and shorter distances. The outstanding special attraction is the \$1,000,000.00 Latter Day Saint (Mormon) Temple, which has been visited, up to date, by more than 100,000 tourists. Cardston has a Dominion Customs House; C.P.R. Telegraph Station; Alberta Government Telephone with continuous service; Alberta Government

Court House; Municipal Hospital, commodious school and High School; 8-acre Athletic Park in the heart of town; 40-acre Agricultural Park and Fair Grounds; the largest Co-Operative Creamery in the Province; 4 elevators, 4 churches; \$100,000.00 Municipal Gravity Water system, and electric light plant continuous service and some 80 business houses, 23 school districts; 13 rural post offices are tributary to, and a surrounding population of 6,000 people trade into Cardston. Opportunities are offered to mixed farmers, manufacturers, stock men, tradesmen, and investors. Dairy farming land and stock farms range in price from \$10 to \$25 per acre, while wheat lands and well improved farms from \$30 to \$50 per acre. Rainfall average, 19½ inches, altitude, 3,860 feet. To see Cardston is to learn something!

CASTOR

a P.O. and station on S35 T37 R14 W4, in Camrose Prov. Elec. Div., on C.P.R. 187 miles n. e. of Calgary, 170 s. e. of Edmonton, 85 east of Lacombe, 35 east of Stettler, and 22 miles west of Coronation. Has C.P.R. agent, C.P.R. telegraph, Govt. telephones. C. P. Express, rural mail routes and excellent roads. The Government Highway runs through Castor. Four churches, \$28,000 stone public school, separate school, \$12,000 town hall, \$50,000 Catholic brick hospital, large deposits of good lignite coal, there being three mines within a radius

CASTOR—Cont.

of one mile of the town, supplying to the citizens and district at \$3.00 a ton at the mines.

There is an abundance of sandstone and brick clay in the district.

Castor is located in one of the best mixed farming districts of Central Alberta, growing No. 1 hard wheat, oats, barley, speltz, flax, broom and Western rye grass, potatoes and garden vegetables in abundance. Sunflowers and silos make feed shortage unknown. Crop failures in Castor district are also unknown, land of beef and dairy cattle, sheep, horses, hogs and poultry. Castor enjoys an excellent market for all farm products, having a daily train service both east and west and being within 6 hours' run of both Calgary and Edmonton.

The Dominion Soldier's Settlement Board has chosen a settlement area near Castor because of the remarkable value and cheapness of the land.

The district around Castor is the sportsman's paradise, there being an abundance of wild geese, ducks, prairie chicken and partridge.

Castor has real live business men and an excellent class of citizens in the town and surrounding district.

Further and more specific particulars along any line will be given by the Secretary of the Board of Trade. Population 750.

O. W. COLLEY.

CHAUVIN

is on S7, T43, R1, W4, in Battle River Prov. Elec. Div., on the C. N. R., gateway to Alberta, situated midway between Saskatoon and Edmonton, in a rich belt of fertile rolling prairie, well watered, admirably suited for mixed farming. The country is well stocked with horse, cattle, pigs and poultry, many farmers being already well established in raising pure bred varieties. The volume of grain, stock and dairy shipments is increasing each year. Last year one train of forty-three cars of live stock was dispatched direct to Winnipeg and Chicago stockyards. Other business being cared for by four grain elevators, stockyards, flour mill, oil warehouse, 1 lumber yard, hotel and 2 restaurants, 2 lawyers, 3 real estate offices, municipal offices, 2 stock buyers, 4 cream buyers, 2 stock buyers, 4 cream buyers, egg circle, butcher, 3 general stores, 2 hardware, 2 garages, printer and publisher, 1 livery stable and other business activities. There are two churches, Roman Catholic and Presbyterian, with established rural points of regular services, high school and elementary schools organized throughout the entire district and rural telephones extending rapidly. Civic and community affairs are well maintained by the activities of the village and municipal councils. Board of Trade, Agricultural Society, U.F.A. and U.F.W.A., Women's Institute and other organizations. The Masonic Oddfellows and Rebecca Order have good strong lodges.

Adjoining Chauvin is a forty-acre park, providing for sports, exhibitions and race track, this being joint property of the village and agricultural society. Six miles East of Chauvin is located Salt Lake, becoming very popular as a boating and pleasure resort, its saline waters possessing health-giving qualities. Manitou Lake, some ten miles long and four miles wide, also provides boating and hunting in season. The new Alberta Government road from Saskatchewan to Edmonton passes through Chauvin.

The farming land in the vicinity is of a very fertile nature, and can be obtained from \$20 to \$40 per acre. Population 300.

Further particulars can be obtained upon application to

CLANDONALD

(formerly Wellsdale). This locality is now served by the new town of Clandonald, and the post office of Wellsdale has been moved to this point, assuming the name of the town. The town is located on S10 T53 R5 W4, in Battle River Prov. Elec. Div., on the Cutknife branch of the C.P.R., in Municipal district of Ethelwyn. Has C. P. R. Express and telegraph. Alberta Govt. Phones connection through Vermilion, which is 21 miles southwest.

Population 85.

Industry—The surrounding country is rolling, slightly brushy, with occasional areas of fair sized poplars.

Soil—Average black loam with clay subsoil. Good grain and mixed farming country. District extends about 22 miles north to Saskatchewan River, approximately 8 miles south, 6 miles west and 4 miles east.

Numerous small lakes, and good water can be obtained in comparatively shallow wells in all parts of the district. Well organized school districts throughout the entire territory, and good roads everywhere.

CLARESHOLM

An incorporated town of 1,200 population, on S26 T12 R27 W4, in Macleod Prov Elec. Div., on the C.P.R. Calgary-Macleod branch, 82 miles south of Calgary, and 26 miles north of Macleod. The district surrounding the town is entirely a wheat-raising district, and is

known to be one of the best in the province in that industry. The town is also the largest and most central in the provincial electoral district (after which the district is named) and besides being a shipping point for a very large amount of grain each year, it also has the advantage of being one of the points at which is located a Provincial School of Agriculture and Demonstration Farm. An Indian Industrial School is located 7 miles west of the town. This school is directly tributary to Claresholm, and in addition to the above educational facilities the town itself is not behind in any respect, having two school buildings (public and high) and employing eleven teachers, including music, with an enrollment of 400 pupils, of which 90 are high school pupils, and in these schools everything is taught from the primary to the twelfth grade.

Both schools are of brick, steam-heated and well-ventilated, and occupy a commanding site at the north end of the town, with ample recreation ground surrounding them.

The town has also within its boundaries six churches—Anglican, Roman Catholic, Lutheran, Nazarene and United, and besides which there is a Mormon church.

The Canadian Pacific Railway have erected here a fine stone station house, and give a service of four passenger trains daily (except Sunday), two north and two south.

The town boasts of having seven elevators, three garages (up-to-date in every respect), two banks, two blacksmith shops, three lumber yards and a flour mill.

If you wish to take up golf, there is one of the finest golf courses in sunny Alberta, and when tired of that visit the Cinema Theatre, fireproof and up-to-date in every respect, and with stage sufficient for legitimate plays; or visit the I.O.O.F. Hall for a concert or dance.

The town is supplied with gas by the C. W. N. Gas Company's line, and is also an important point for the Alberta Government Phones.

The water supply for the town is pumped from Willow Creek, six miles west, filtered through a natural gravel filter, and is of the purest quality possible. Electric light is supplied by the Calgary Power Co.

The town also boasts of two up-to-date weekly newspapers: the "Claresholm Review" and the "Claresholm Local Press, owned and edited by F. H. Schooley. The hotel accommodation is second to none in the province for a town of its size.

CLUNY

a P.O. and station on C.P.R. main line,
in Bow Valley Prov. Elec. Div., 19 miles
west of Bassano and 8 miles east of
Gleichen. This district always produces
a crop. Wheat shipped from this dist-
rict in 1920 approximately was 1,300,000
bushels and 1920 was considered an av-
erage year. No land for sale in this
district for less than \$45 per acre, and
much has been sold for \$75 per acre.
Shipping facilities are of the best, be-
ing on the main line of the C.P.R.
There are good roads everywhere, brid-
ges across the river, no ferries, six ele-
vators in the town and four trains a
day on railroad. Has Alberta Govt.
telephones all through the country,
schools, churches, private hospitals,

public halls, etc., throughout the dis-
trict. Population 250.

COALHURST

a P.O. and town on S21 T9 R22 W4, in Lethbridge (Prov. Elec. Div., 7 miles northwest of Lethbridge. Has Alberta Govt. long distance, rural and local telephones. United, Catholic and Pentecostal churches and two schools. At the present time coal mining is the principal industry. The North American Collieries Ltd., owners Lethbridge Colliery, has daily capacity of 2,000 tons. Imperial coal is the output. The district surrounding Coalhurst was placed under irrigation in the fall of 1922 for turning on the water. The town is very active at this time and the citizens anticipate that the year 1934 will show the town to be in the centre of one of the best irrigated districts of Southern Alberta. The town has no bonded debt and a low tax rate pure water supply and electric light. Headquarters of Provincial Police.

The business portion of the town consists of five general stores, one hardware store, one bank, one garage, one blacksmith shop, one meat market, one billiard hall, one moving picture theatre and dance hall, one laundry, one barber shop, one bakery, two restaurants, a general hospital and resident doctor.

The societies are represented by the District Board of Trade, Community Club, Odd Fellows, Rebekahs, Ladies Art Needlework Club, Miners' Union, and the Tennis Club. The Odd Fellows own the finest hall in the district. Population 4200.

CRAIGMYLE

a P.O. and station on S20 T31 R16 W4, in Acadia Prov. Elec. Div., situated on the Calgary-Saskatoon line of the C.N.R., about 123 miles northeast of Calgary, 14 miles northwest of Hanna, and 37 miles northeast of Drumheller. Has C.N.R. agent. C. N. Teleg. Govt. Tels. and C. N. Exp. Sub Hospital of Hanna Municipal Hospital Distr.ct. It is the centre of splendid wheat farming country and a complete crop failure has not been known. Soil is a chocolate loam on clay sub-soil. Excellent grain country. Land values run from \$20 to \$40 an acre. To the north and south coal has been found and is being worked on a small scale. In a northerly direction gas has been found and is being used for domestic purposes by the farmer. The town is lighted by electric light from the Union Power Co. Ltd., Drumheller. Mr. C. R. Ecklin, on whose land the well is located. Pure bred cattle are to be seen on a number of the farms in the district. There are six elevators which handled about one million bushels of wheat in the season 1927. The population of the village is approximately 300.

D. L. SLOAN,
Sec.-Treas. of Craigmyle.

DAYSLAND

a P.O. and station on S9 T45 R16 W4, in Camrose Prov. Elec. Div., and incorporated town, with a population of 500, is most advantageously situated near the centre of a large tract of choice agricultural land, which is steadily increasing in value as its worth becomes better known. The C.P.R. extended a line from Wetaskiwin to the townsite of Daysland in the fall of 1905 and this line has since become a portion of their main line from Winnipeg to Edmonton. The town is 51 miles east of Wetaskiwin, and about 80 miles southeast of Edmonton. Not only the town, but the entire surrounding district is served by the Alberta Govt. Telephones, there being twelve rural lines and continuous service. There are 2 chartered banks, Union Protestant and Roman Catholic churches, a large hospital under control of the Sisters of Charity, and a good six-roomed school. The district is favored with a larger average of rainfall than even some others in the province, making it especially well adapted for mixed farming, including the production of wheat, oats, barley, rye, clover and grasses of all kinds, as well as root crops, while all kinds of live stock thrive remarkably well, and large shipments are made annually. A local creamery does a thriving business. The coal mines along the Battle River are within easy reach. Six grain elevators of full standard capacity are in full operation, one of them doing a large feed mill business. Population 500.

DELIA

a P.O. and town on C.N.R., 115 miles
 northeast of Calgary, 22 miles south-
 west of Hanna, and 30 miles northeast
 of Drumheller. Has C.N. agent, and
 telegraph, Govt. telephones and express.
 The town serves a district 35 miles
 south, 25 miles north, and is located in
 the midst of a variety of soil formation.
 In the northwest we have heavy gumbo,
 which has stood so well the dry seasons
 of the past years; in the northwest the
 land runs from chocolate loam to quite
 light formation; in the south we have a
 light formation more suitable to grow-
 ing oats and rye. We have not known
 a crop failure for the past 12 years, and
 the shipment of over 800,000 bushels of
 wheat at this point last year will show
 the nature of the yield. We have
 shipped out the past year, 125 cars of
 cattle. One of the future prospects of
 Delia is the large deposits of coal that
 are found in every well that has been
 sunk in the village. Population 400.

DIDSBURY

a P.O. and station on the C. & E. branch of the C.P.R., being about 50 miles north of Calgary and 146 south of Edmonton. C. P. R. Agent, C. P. Express, C. P. R. Telegraph and Alberta Govt. Telephones. Electric light plant is municipally owned and operated by the Calgary Power Co. Fine 6 room brick public school, including library, assembly hall and laboratory—worth \$45,000. Four-roomed brick High School, including office, gymnasium room worth \$20,000. The schools just mentioned are admitted to be among the best equipped schools in the Province. Hospital—run by adjoining country and town municipalities. Six churches of different denominations. A fine 50 room brick hotel, modern in every way. Flour mill, very large creamery, manufacturing butter, cheese and condensed milk. Besides this there are two large cream stations buying milk for Calgary dairies. Three garages—one being the best and Edmonton. The Royal Bank and Bank of Montreal have branches in the town.

The fall Fair was considered one of the best county fairs in the Province, having an exceptional exhibit of heavy, draft and light horses and short-horn cattle. It is one of the most thickly settled districts of the Province and all English-speaking. Population 950.

DRUMHELLER

an incorporated Town on the Calgary-Saskatoon main line of the Canadian National Railways, 85 miles East of Calgary, and also on the Calgary-Edmonton branch of the Canadian National Railway and the Calgary-Drumheller branch of the Canadian Pacific Railway. It is the chief town and centre of the now famous Red Deer Valley coal mining district, and has been one of the fastest growing communities in Western Canada. Fifteen years ago the district was a ranching one and practically unknown, with no railroad facilities, while today the two big continental railways are bidding for its domestic coal output and a community of some twelve thousand people are now served from Drumheller, the Town proper being 3000 population.

In the Fall of 1911, prospects for coal were investigated, and, the first carload of coal was shipped out in 1912. Since then the output of coal has increased until in the year 1926, 1,300,000 tons of coal were produced, with a maximum output of 315 cars per day. With about 30,000 acres of coal land immediately available and new districts being opened up, the Drumheller Valley has coal resources to supply the trade for the next five hundred years. There are thirty mines now operating in the district, which last year produced a revenue of \$5,000,000. The mines supply the trade of the three prairie Provinces, Manitoba, Saskatchewan and Alberta, and do considerable business with Vancouver and British Columbia points. If Alberta is fortunate in securing a freight rate to Ontario, the output of the Drumheller Valley will be doubled with the addition of a share of the Ontario domestic coal market. The coal is a very high grade domestic coal, while the very latest mine machinery and methods are used in the various mines. Wayne, Rosedale, Aerial, Nacmine, Newcastle and Midlandvale are the coal camps tributary to Drumheller, while another camp is being opened up at Willow Creek or East Coulee, which will be served by the Rosedale-Rosemary railway branch now under course of construction. Three thousand men are employed in the Red Deer Coal Valley mines, which mean a big payroll during the domestic coal season, as well as greatly increased railway payrolls. The extensions of both the Canadian National and Canadian Pacific Railways to meet the requirements of the district are such that Drumheller is bound to become one of the big railway points in the West, each year seeing added railway facilities, and the railway yards extending almost from Nacmine to Rosedale to accommodate the heavy traffic during the coal season.

Drumheller is not only a coal centre, but a great agricultural centre, the land on the plains above the Valley being some of the finest in Canada, and producing yields of a quality, which has made such names as Munson, Morrin, Orkney, Verdant Valley, and other farming districts tributary to Drumheller household ones among those interested in the agricultural industry of Canada.

Drumheller is also the judicial centre for the large Drumheller Judicial district, it is the customs port for the district, the hospital centre, educational centre, buying centre, and, in fact, is the hub of everything for a large radius. Its stores, are of the latest type, stocked with the latest merchandise, while its commercial life is supplied with banks, lumber yards, machine

shops, garages, hotels and every other branch of business activity. Theatres, lodgerooms, Clubs and other classes of community entertainment halls are numerous, while Drumheller has one of the finest swimming pools, and also in Alberta, as well as large Arena for skating and hockey and also a Gymnasium.

The schools in Drumheller are of the very latest type, the new Central School being a model in construction and appointment. The church life is well represented by the Knox-United, St. Magloire's Church of England, St. Anthony's Roman Catholic Church, Nazarene Church, and Salvation Army.

The Drumheller Municipal Hospital is one of the leading Hospitals in the Province of Alberta, and, is the centre of a great Municipal Hospital district. It is constantly increasing its accommodation, and, it is most efficiently staffed, as well as having all the latest hospital appointments. Nine doctors co-operate with the hospital in looking after the sick of the community.

Drumheller has two auto camps, the Drumheller Camp and the Midland Camp, both of which are spoken highly of by the tourists. Drumheller is on the Wheatbelt trail, Banff-Calgary-Drumheller-Saskatoon-Winnipeg. The tourist trade in Drumheller each year is increasing, as there is naturally much for the tourist to see in the great domestic coal Valley.

Sport of every kind flourishes in Drumheller, the Drumheller Golf course, being one of the sportiest in Alberta, while, tennis, baseball, hockey, curling, are played under ideal conditions. Drumheller is also the gateway to the great dinosaur fields, many of these prehistoric specimens being on exhibit in the museums of the continent.

EDGERTON STATION

a P.O. and station on S34 T43 R4 W4,
 in Battle River situated 146 miles east
 of Edmonton, about midway between
 Edmonton and Saskatoon, on the main
 line of the C.N.R., and draws trade from
 an area of 15 to 20 miles. Has C.N.R.
 telegraph, C. N. express and telephone
 offices. Is a village of about 200 pop-
 ulation, well represented in all lines of
 business, has two Protestant churches,
 used by different religious bodies, six
 elevators and a five-roomed school.
 The district is mostly populated with
 English-Speaking people of a very
 thrifty nature. The district itself is
 well located naturally for mixed farm-
 ing, the grass being very luxuriant for
 fattening stock, part of the land being
 rolling and part valley, making it a
 good wheat and oat proposition.

City of Edmonton

Edmonton, the Capital of Alberta, is located on the North Saskatchewan River, about two hundred miles east of the Rocky Mountains. At this point the river is flanked by high banks covered with spruce and poplar, or by broad open flats which provide splendid sites for parks and recreation grounds. The situation is ideal from the standpoint of landscape beauty, and as wealth and population increase Edmonton will rank as one of the beautiful cities of North America.

Edmonton holds the key position geographically to about one-quarter of the area of Canada, comprising the Valleys of the Saskatchewan, Peace, Athabasca and Mackenzie Rivers, and the great hinterland of North-West Canada. The extension of the Canadian National Railways to Prince Rupert has added Northern British Columbia to this area, as well as giving a short route for the products of the Prairies to the Yukon.

In the days of the fur trade many posts were built along the Saskatchewan River. Edmonton alone has survived and is developing into a great commercial metropolis because it is a natural trading centre. Ninety-five wholesale and jobbing houses are at present engaged in the distributing trade of the city. Its strategic position in Western Canada becomes more and more apparent as the city and the great territory it serves develops.

It is the meeting point of three trans-continental lines of railway, and the most important railroad centre on the Canadian National Railway System between the Great Lakes and the Pacific Ocean. There are 2,397 Canadian National Railway employees who make their homes in the city.

Edmonton, lies opposite the lowest pass through the Rocky Mountains on the continent, and thus will draw through its gates the greater portion of the trade between Alberta and British Columbia, two of the richest provinces in Canada in natural resources.

The vast supplies of raw materials of the territory surrounding Edmonton form a basis for extensive manufacturing industries. The cost of living will always be reasonable because of the great production of foodstuffs: wheat, flour, meats, fish, poultry, eggs, butter, cream, cheese, milk and vegetables.

Edmonton is the centre of a great coal industry. Some sixty-two coal mines are in operation. The number of men employed in the various seasons of the year is over 2,500, and the annual production about two-and-one-half million tons.

Edmonton lies on the edge of one of the greatest natural gas fields in America. The field extends in a broad zone from the Peace River, northwest of Edmonton, in a southeasterly direction across the Province to the Battle River, and beyond to the inter-provincial boundary, a distance of over 300 miles. The city is supplied with gas from the Viking-Wainwright portion of this field, which lies about eighty miles east of Edmonton. Open flow per day 70,000,000 cubic feet.

The Northwestern Utilities Company, Ltd., has constructed a pipe line from this field to the city. The Company

has eleven producing wells completed. The estimated flow per well being 4,000,000 cubic feet per day, with a rock pressure of 715 lbs. The area of the wells in question extends to 27 square miles, which ensures a gas supply ample for the requirements of the city for at least a period of twenty years. Additional to this area, however, known as the Viking area, there is a further region known as the Fabyan, 30 miles south of the Viking area, which promises to prove a still larger gas reservoir, so that the future supply of gas for the city seems absolutely assured.

While the aim of the Company is primarily to cater to the domestic consumer, to whom the use of gas appeals, it is anticipated that the supply is of such adequate proportions that manufacturing concerns will largely benefit by the use of the gas supply, the rate for which, though at present fixed at 30 cents per thousand cubic feet, may subsequently be reduced so that the larger manufacturers may take advantage of the utility. Within the city the gas will be distributed from mains extending to seventy-five miles. The domestic rate is fixed for the present at 42 cents net per thousand cubic feet.

In the Edmonton Timber Agency there are twenty-seven sawmills operating under license and ninety-five small portable sawmills under permit. The annual lumber cut in the city is about thirty million feet. On the west side of the Rocky Mountains, in British Columbia, a territory tributary to Edmonton, the log cut is about the same as in Alberta. In addition, there is a regular winter industry of cutting railway ties, lath, shingles and mine props, which gives the homesteader an opportunity of earning extra money. The complement of the lumber industry is found in several woodworking factories, manufacturing sashes and doors, dressed lumber, and other building supplies. Two box factories in Edmonton do a flourishing business.

The clays and shales of the District make excellent brick and tile. Several brick factories in the City and vicinity are being developed as the needs of urban and rural settlement require. West of Edmonton, at Marlboro, cement is made and finds a ready market in the city and throughout the Province. Some of the clays are very suitable for pottery and other ceramic products.

The Edmonton Stock Yards handled 270,000 hogs; 102,000 cattle and 15,000 sheep last year. Total value of livestock handled \$8,000,000.

Flour milling was the first industry in Edmonton. It still holds an important place and has a prosperous future, particularly as a result of the coming development of the Western Grain Route. The manufacture of several cereals and mill feeds is beginning with prospects of becoming a considerable industry.

The packing industry began in a modest way over twenty years ago, and the pioneer firm Gainers Limited, has made substantial progress commensurate with the growth of the live stock industry. In 1907 the Swift Canadian Co., Ltd., a branch of Swift & Company, of Chicago, established the first

big packing house in Edmonton. A few years later P. Burns & Co., Ltd., the great pioneer packing house of Alberta, followed.

These industries employ about eight hundred hands, and provide a market for thousands of cattle, sheep and hogs each year. The three packing plants have doubled their capacity and output the last ten years. Edmonton is well situated for this industry, and a great expansion is inevitable.

During the last few years many new industries have sprung up in the city because of the ready supplies of raw materials, and because of the local demand created by a city and district of 400,000 people, and the possibility of meeting that demand by local enterprise and capital. Prominent examples are the manufacture of men's heavy clothing, women's and children's wear, iron, steel and sheet metal products, fence wire, furnaces, drugs, chemicals, brooms, cigars, soaps, candies, beverages, fur garments, boats and canoes. The success that has attended the establishment of these industries indicates the possibilities of industrial expansion in the City of Edmonton. The vast stores of coal and natural gas so easily available hold the possibilities of cheap power for manufacturing industries as well as the possibilities of several new industries growing out of the numerous by-products of the Edmonton coals. As the population of Edmonton and the rich district surrounding it increases, manufacturing opportunities will expand to meet the needs of a highly progressive community. Man-power and money-power applied to the natural wealth of Central Alberta will transform the province into a great industrial area equal to any other on the American Continent.

There are at the present time about 199 factories, large and small, which are all on a permanent and successful basis. The next ten years will be much more favorable to the establishment of manufacturers in the district than in any previous period. A factor to be considered in this connection is that the population of Edmonton includes many people from the Old Country who are industrially trained, workers in new industries. By the last available Dominion census the number of industrial employees in the city is placed at over 4,200, and the annual output of manufactured goods is valued at \$20,000,000.

Edmonton is the seat of the Provincial University. The registration for 1922 in this institution was over 1,500 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law and commerce.

There are over forty-eight Protestant public schools and eleven Roman Catholic separate schools, four high schools and the Technical high school. The school population has doubled since 1913, and is now 16,440. At the present rate of growth the School Board of Edmonton must build a new eight or ten roomed school every year. Other educational institutions that illustrate the importance of Edmonton as a centre of learning are Alberta Theological College, Methodist; St. John's Oblate College and Edmonton Jesuit College. For young women there are Westminster Ladies College, Alberta College South, and four Roman Catholic Convents. Business and commercial training are given by the Commercial High School (part of the public school system) and three business colleges.

Men's and women's clubs are represented by the various forms of organizations found in modern cities of the continent. Sports of various kinds are

well organized. Of winter sports hockey is the most popular. There are literally scores of amateur hockey clubs in different parts of the city. Curling and skating rinks are found in every section of the city. Ski-ing, snowshoeing and tobogganing afford exhilarating and healthful exercise. The popularity of winter sports is the best testimony of our splendid winter climate. Tennis, soccer and baseball are the most popular games in summer. There are three golf courses in the city, and the game has taken a firm hold. Lawn bowling is growing in favor.

Basketball is popular, and the commercial Graduates, all past students of the Commercial High School, hold the championship of the world in basketball.

There are over eight hundred acres of public parks situated in different parts of the city, as well as several excellent children's playgrounds. Two of these parks are provided with splendid swimming pools, which afford delightful recreation daily to hundreds of adults and children. The average attendance for the season is 1,600 a day in each pool. A third pool is conveniently located in the West End residential district.

Several lakes in the vicinity of Edmonton provide excellent summer resorts and are easily reached by motor or by train. Summer tourists will find a camp site conveniently situated within the city.

The water supply is taken from the North Saskatchewan River, through two 36-inch intakes into the pump station on the north bank of the river. At the pump station there are two six-million gallons and one eighteen-million gallons low lift centrifugal steam-driven pumps, one six-million steam-driven centrifugal high lift pump, and two ten-million electric high-lift pumps.

WATERWORKS DEPARTMENT.

MUNICIPALLY OWNED—Operated by Council and Commissioners.

SUPPLY—Pumped from North Saskatchewan River at centre of distribution.

ELECTRIC AND STEAM DRIVEN PUMPS—Capacity low lift 35,000,000 gallons per day. High lift 35,000,000 gallons per day. Stand by steam 6,000,000 gallons per day.

RESERVOIRS—One and one-half million gallons capacity; also 1,500,000 gallons capacity Sedimentation and Door Tank mechanical clarifier and agitator tanks, Chlorine and Alum mechanical mixers and necessary buildings.

PURIFICATION—16 Roberts Mechanical Filters. Two 30" and one 20" direct high pressure feed mains to City.

DISTRIBUTION SYSTEM—Comprises 115 miles C. I. mains, 27 miles of wood mains and 54 miles of steel mains. Total mileage of Distribution System—196.12 miles

SERVICES—15,689.

METERS AND RATES—80% of whole distribution system metered rates from 28c per 100 cubic feet down to 11c per 100 cubic feet—according to consumption.

CAPITALIZATION—to Dec. 31st, 1927 —\$3,040,600.00.

REVENUE IN 1927—Amounted to \$555,962.12.

CONSUMPTION—6,500,000 gallons per day.

Domestic per capita consumption per day—52 gallons.

Total daily per capita 87.9 gallons.

Year's average normal increased consumption—2.2%.

FORT SASKATCHEWAN

a P.O. and station on S22 T54 R22 W4, in Vegreville Prov. Elec. Div., on the main line of the C.N.R., 24 miles north-east of Edmonton. Has C.N. Express and telegraph, and Alberta Govt Telephones. The Fort is one of the oldest towns in Alberta, in the early days having been a post of the R.N.W.M.P., at a time in the history of the West when Hudson's Bay posts with their traders, the Indians and the fur trappers, were the only inhabitants. The

town still retains something of its ancient official character through the location there of the provincial jail, one of the most up-to-date and progressive institutions of the kind in the Dominion. The town has a good public and high school with an efficient staff and both Protestant and Catholic churches. The country surrounding here has, for a radius of twelve to twenty miles, been under cultivation for many years and has long since proven itself to be first-class agricultural land. As a consequence not only are the farmers of the district now in independent circumstances, having first-rate dwellings and barns with up-to-date equipment. The land is all practically under cultivation, the district is free from hail, frost and drought, so that town and country as time goes on are bound to be most substantial financially, and from the nature of the residents, who are Canadian English and French, with some Germans will continue to be progressive and up-to-date. (Population about 1,100.

HENDERSON DIRECTORY ARE ON FILE AT ALL PUBLIC LIBRARIES IN WESTERN CANADA

GRANDE PRAIRIE

Grande Prairie City itself would compare most favorably with the Edmonton of fifteen years ago with a population of well over 2,000. It has a modern electric light and power plant and an adequate system of waterworks which affords efficient fire protection, together with both local and long distance telephone service. Four wholesale houses, Campbell, Wilson & Horne Ltd., Kelly Douglas Ltd., W. C. Pratt Wholesale and Crummy Bros. Ltd., maintain large stocks at this point and distribute from local warehouses to all other points in the district. Three banks. Grain elevators with a total capacity of 310,000 bushels are located in the district, three of these being in Grande Prairie City, the remainder being located as follows: Spirit River 2 Wembley 4 Dimsdale 1 Sexsmith 5 Clairmont 5. The retail trades are all well represented as are also the professions. Local bakers, a firm of candy and confectionery manufacturers, butter and dairy produce makers and a firm of flour millers, each shipping to all parts of the north country, planing mill and brick yard form a nucleus of what will become a large industrial centre as the country develops. Several large concerns are considering establishing local manufacturing branches at the time of going to press, and investigations carried out justify the belief that the development which has taken place warrants the establishment of those at the present time, while of the future there can be no doubt.

An abundance of coal, obtainable locally, a low tax rate (levied on the single tax basis), electric current for light and power purposes, an adequate water supply and a rapidly developing market, are features that should prove conducive to investigation.

The Imperial Oil Company uses it as the distribution centre for the district, and also as the base of the extensive operations being conducted in the Pouce Coupe country by the production department of that corporation.

Several good hotels offer modern conveniences to the travelling public and numerous auto liverys operate from the city to all points in the Grande Prairie, Pouce Coupe and Peace River districts.

The governments (both Dominion and Provincial) Administrative Offices for the Grande Prairie Land District are all centralized in Grande Prairie City. Under this head is included: Dominion Land Offices, Timber Inspector, Soldier Settlement Agency, Immigration Hall, District Court Offices, and Court House; Alberta Provincial Police, district headquarters: R.C.M.P. Depot, District Magistrates Office, Redistributing Post Office, Public Health Nursing Station, Government Telephone District Stores, etc., etc.

BUILDING STATISTICS

In the year 1919 over a hundred building permits were issued representing an expenditure of \$300,000, and in 1920 there were sixty-five, representing an expenditure of \$220,000.

The developing of the varied resources of the Grande Prairie District is destined to make it one of the most

GRANDE PRAIRIE—Cont.

productive and populous areas in the Dominion, a province itself, while the young city bearing its name has already entered on a remarkable period of growth similar to that which was experienced in the early days by such cities as Winnipeg, Regina, Calgary and Edmonton, and it offers the same golden opportunities which were then existent in those centres.

The Grande Prairie Board of Trade, incorporated as representative of the Grande Prairie Land District, is taking an active part in the development and colonization of the district and has published a series of illustrated booklets, describing conditions as they really exist, copies of which may be had by writing the secretary of the Board of Trade, Grande Prairie.

HANNA

a P.O., station and divisional point on C.N.R., on S9 T31 R14 W4, in Acadia Prov. Elec. Div., the Hanna Judicial District, 263 miles southwest of Saskatoon, and 137 miles northeast of Calgary. Has telegraph. C.N. express and Alberta Govt. Phone offices. Mixed farming and stock-raising. The Hanna district marketed 4,250,000 bus wheat, 1,108,000 lbs. butter and \$300,000.00 of livestock in 1925-26, and is undoubtedly one of the most promising farming, dairying and ranching districts in Western Canada. While the district may be described as "mainly agricultural," considerable importance might be attached to the local deposits of first-class domestic coal, which is mined in ever increasing quantities and which finds a ready market in Saskatchewan and Manitoba, as well as supplying the purely local market. Hanna is one of the most important railway terminals in the West, with railway lines radiating in four directions, and the bi-monthly payroll is a very important factor in maintaining a steady level of prosperity. The population is English-speaking, and of the type that makes for prosperity and contentment. Population 2,000.

HARDISTY

a town and divisional point, 135 miles east of Edmonton, on C.P.R. main line, Edmonton to Winnipeg. Has C.P.R. telegraph, express and Alberta Govt. telephone offices. Centre of extensive mixed farming area. Splendid opportunities for all lines of enterprise. The town overlooks the Battle River Valley, and the soil is gravel, overlaid by sandy loam. There is no better water in all the west. The school is a modern brick building, in which both public and high school grades are taught up to and including twelve. The C.P.R. have large yards at this point, also up-to-date machine shop in connection with roundhouse, where a large staff is employed. The heavy payroll is a great assistance to the business of the town. Large shipments of cream and eggs are daily being made. Three different grain companies are represented here, and each has large elevator. Has Anglican and R. C. churches. Population 637, with tributary population of 4,795.

About one-half mile from the town is a beautiful lake. Motor parties from adjacent towns spend their week-ends very pleasantly at this lake, which is located on the side of the town park, which consists of about 176 acres of beautifully wooded land.

HIGH PRAIRIE

a growing town on E.D. & B.C. Ry., 234
miles northwest of Edmonton and 85
miles southeast of Peace River. Popu-
lation over 1,800 in town and district.

Weber Bros. Agencies Limited

GENERAL INSURANCE AGENTS - FIRE HAIL CASUALTY
Phone 23461 "The Service Office" Edmonton, Alta.

HIGH PRAIRIE—Cont.

Has Dom. Govt. telegraph and telephone systems, C.N.R. telegraph and express office, sub-agency Dominion Lands, four-roomed consolidated school, Anglican, United and R.C. churches. An excellent mixed farming district, with plenty of water and moisture. Three rivers and several creeks traverse the district, and good well water obtained at 15 feet. Drought or crop failure unknown. Timothy, brome grass and wild hay grow in abundance. Oats yield as high as 125 bushels per acre, and wheat 62 bushels per acre; spring and fall wheat, rye and barley do well. Two grain elevators. The soil is silt; logs and decayed material found 15 feet below the surface. Phenomenally fertile, and known as the Garden of the Peace River District. Dairying and sheep-raising successfully carried on. The Woodland Dairy Ltd., makers of butter and cheese is the largest creamery in the north. Settlers mostly British, American and Scandinavian. Some good homesteads to be had from 8 to 15 miles. Improved land \$15 to \$30 per acre. Good auto road to Lesser Slave Lake, 20 miles, with good resort, sandy beach, fishing, etc. Good graded roads throughout the district. On Sunshine Highway, Edmonton to Peace River.

HIGH RIVER

a P.O. and incorporated town on C.P.R. Calgary-Macleod line, 40 miles south of Calgary, and 68 miles northwest of Macleod. On Banff-Grand Canyon automobile highway. Has rural mail route. Electrical energy is now being supplied by the Calgary Power Co. Has C.P.R. agent and telegraphs, express, Alberta Govt. Phones.

The farming district of High River might be said to be Townships 18 and 19, Range 2, West of the 5th Meridian, and extending east to Range 28, West of the 4th Meridian. This is eight townships—288 square miles—184,320 acres of good land. This approximately represents an investment in land alone of \$5,529,000.

In the year 1923 the Canada Air Board selected their site at High River for an aerodrome, which completes the link in the Transcontinental Air route, and the work of forest fire control is conducted from this point daily routes being made north to Eckville, and south to Waterton Lakes. A wireless telegraph and telephone system has also been established. This is at the present time the largest air station in Canada. Grain and stock farming. Land is very fertile, soil yielding some years as high as 45 bushels of wheat and 85 bushels of oats.

High River is the centre of a very large hospital district, and in 1923 completed one of the most modern and best equipped hospitals in Alberta. Ratepayers in the district are charged a fee of \$1.00 per day. Lumber mill operated in town, employing from 50 to 100 men in season. Population of town 1,500 and of the district 11,500.

HOLDEN

a P.O., station and prosperous village, on S14 T49 R16 W4, in Vegreville Prov. Elec. Div., situated 61 miles east of Edmonton, on the main line of the C.N.R., with a population of 300 inhabitants. Good school telephone exchange, Royal Bank and Herald newspaper; good market facilities and satisfactory train service are convenient to all. The religious needs of the community are served by the Methodist R. C. and Norwegian Lutheran denominations, who each have a large church building, in which are held regular services. Six elevators, of a combined capacity of 200,000 bushels, handle upwards of 800,000 bushels annually. A large volume of cream, butter, eggs and poultry are marketed, there being five cream-buying stations who ship these

HOLDEN—Cont.

products to the city. In addition there are about 3,000 head of cattle and about 2,000 head of hogs shipped annually, for which there are good and convenient markets in the City of Edmonton. The business of the village is supported by more than 500 farmers residing in the surrounding district, who for the most part are prosperous and own good, comfortable homes. The land is slightly rolling, with a rich, sandy loam soil and clay subsoil, partially covered with a growth of poplar trees, which furnish the settlers with firewood, fencing and some building material. This land, however, is easily cleared, and the soil is very productive, being well adapted to the growing of grains, hay and vegetables, with yield seldom surpassed. Coal may be had from mines in the vicinity, from which many secure their winter supply of fuel, and gas is principally used for heating and lighting.

INNISFAIL

a P.O. and town on C.P.R. Calgary-Edmonton line, 76 miles north of Calgary, 118 miles south of Edmonton, 18 miles south of Red Deer, and 18 miles north of Olds. It is the largest dairy centre in Western Canada. Innisfail District turns out 40 per cent of the total output of butter in Alberta. It is the largest shipping point of cattle, hogs, horses and hay. It has never known a total failure of crops. It has sufficient rainfall to mature crops: the soil is of the best, as it has the record of growing wheat that took First Prize at the "Chicago World's Fair"—this was grown by W. H. Kemp, at Innisfail.

Innisfail District is not a bleak prairie, but has frequent patches of timber so necessary to farmers. It is well watered with lakes, rivers, creeks and springs, and has an abundance of wood

for fuel and inexhaustible supplies of coal. Population 1,000.

IOWALTA

a farming settlement near Lacombe
 Prov. Elec. Div., reached by stage from
 Lacombe on the C.P.R., 10 miles distant,
 the nearest mail is now sent via R R No
 3, telegraph point and business centre.
 Has telephone and public school. 20
 farmers in vicinity.

IRMA

a P.O. and village on S27 T45 R9 W4,
 in Battle River Prov. Elec. Div., 110
 miles southeast of Edmonton, 200 miles
 west of Saskatoon. Has C.N. telegraph
 and express, Alberta Govt. telephone
 offices, choice mixed farming district,
 good water and abundant native grass,
 3 elevators, bank, church, school. One
 of the strongest gas wells in Canada is
 located southeast of Irma. A number
 of oil well outfits are drilling in the
 district. The Irma Times serves the
 vicinity with a weekly paper. Settlers
 are principally Canadians and Ameri-
 cans. The farmers have been conduct-
 ing a co-operative store for the last
 seven years. The district is well sup-
 plied with telephone service, some hav-
 ing been erected by the farmers as a
 co-operative movement. Has public high
 school. Population 200.

public school. It is a health resort and outfitting point for tourists intending to visit park. Edson, about 126 miles northeast, is the business centre. The park consists of 4,406 square miles, ten miles of each side of the C.N.R. Ry., from Parkgate to Yellowhead Pass. Sites have been selected for hotels at Fitzhugh and Miette Hot Springs. It bids fair to be a great resort for tourists.

KILLAM

a P.O. and Station and an incorporated village, with a population of about 400 people. It is situated on the Wetaskiwin branch of the C.P.R., 70 miles east of Wetaskiwin, in Camrose Prov. Elec. Division. It is in the centre of the best wheat growing district in northern Alberta, having exported more spring wheat for several years than any other town in Alberta.

The land is of a slightly rolling nature, and has produced as high as 50 bushels of wheat to the acre. A trip through this district would impress any travellers with the prosperity of the farmers. Large barns and commodious houses, many lighted by electricity and heated by steam, are to be met with, while practically every farmer has his automobile, and after his day's work is over, gets the family in and comes to town where he is entertained by one of the best bands in Alberta. It consists of some 30 pieces under the able management of one of its own citizens. There is also a junior band of about 20 pieces that some other towns would be proud to boast of as a senior band. There are three good churches with up-to-date ministers, and a school, steam-heated and capable of preparing pupils for teachers' certificates right at home. There are general stores, hardware stores, drug store, pool rooms and barber shop, a tin shop, two real estate offices, lawyer's office, dentist's office, bakery and blacksmith shop. There are implement houses and physician. One of the latest additions to the town is the Killam Mfg. Co., where large brush cutters are made and sent to all parts of the province. There are garages and repair shops in town where autos may be repaired or new parts furnished.

In short Killam is a flourishing village of enterprising people, in a progressive community.

LACOMBE

is situated in Lacombe Prov. Elec. Div., in the central part of the province on the main line of the C.P.R., which runs between Calgary and Edmonton, and also the terminus for the line running east to Winnipeg which gives splendid service both in passenger and freight. It is 103 miles north of Calgary, 81 miles south of Edmonton, and 50 miles west of Stettler. Has C.P.R. telegraph, Alberta Govt. telephone, both rural and city, Dom. express and good post office. Also a Government Experimental farm adjoining the town, containing 550 acres, where experiments are made for all classes of hay and grain, milk, beef, cattle, sheep and hogs. It is the centre of a very rich farming district, over \$1,264,000 received in export from this district during 1919, and this does not tell the story of production, as a big portion of what is raised in the district is fed and shipped to the market on the hoof—hogs, beef, milk, cattle, sheep, horses, wheat, oats, barley, rye, timothy, and wild hay is the program that the farmers here have to work with and a failure has never been known among the old-timers in 20 years. "It is not generally known that the best producing beef stock in the Dominion of Canada, is raised in the Lacombe District," said Duncan Anderson, pioneer expert for the Dominion Department of Agriculture. Population 4,800.

LAMERTON

a station on the C.N.R. Edmonton, Camrose, Mirror, Calgary branch, in Camrose Prov. Elec. Div., has C.N. Exp.

LAMONT

a P.O. and town on S20 T55 R19 W4, in Vegreville Prov. Elec. Div., 40 miles east of Edmonton on the main line of the C.N.R. Has C.N. Express and C.N. Telegraph office and is at the south edge of a settlement of Austrians and Russians who were brought into the country in 1896 and the following ten years. In the immediate vicinity of Lamont there is a small population of English-speaking farmers, though the business of the town appears to be gradually falling into the hands of foreigners. The people of Eastern European extraction who first settled here were the poorest of the poor and it has taken them until within the last five years to get on their feet. They are now, however achieving prosperity and the town and district are bound within the next five or ten years to become a wealthy and influential part of Northern Alberta.

In Lamont is located the Lamont Public Hospital, an institution which for several years has been doing splendid work. There is also a four-room school in which public and high school subjects are taught. There is a Union Church which serves the needs of the English-speaking population, while throughout the rural districts are found Greek, Orthodox and Catholic Churches, which meet the requirements of the

foreign-born population. There are banks, general stores and a drug store in town, and the fact that there are five grain elevators indicates the confidence of the grain-buying companies in Lamont's future. Population 450.

City of Lethbridge

Lethbridge, Alberta, is a city of 12,000 inhabitants, situated fifty miles north of the international boundary line, 764 miles west of Winnipeg. It is a prairie city on the banks of the Old Man River, just east of the Canadian Rockies, on the Crow's Nest Division of the Canadian Pacific Railway, and is the commercial and agricultural centre and supply point of Southern Alberta and the Crow's Nest Pass coal fields. It is the centre of large coal mining operations. The development of coal mining in this vicinity is the largest in Canada, west of Nova Scotia.

The value of co-operation between town and country is nowhere more appreciated than in Lethbridge. The citizens, through the Board of Trade, have ever been active in the interest of the farmer, and anything that would assist in improving farming conditions in any way has always been strongly supported by the Board. Irrigation development, better roads more convenient railways, proper educational facilities for children in the country are some of the movements in which the people of the city have been identified. It is not from a spirit of altruism that the people of the city have taken part in these and various other movements in favor of their neighbors in the country. In this interrelationship between town and country both the farmer and the citizens have benefited in many ways.

Lethbridge is spoken of by the travelling public as being the most beautiful of all the prairie cities. It is clean and sanitary. It has three well kept parks covering 303 acres, the admiration of all. As the traveller steps off the train, the first thing that greets his view is a park or garden, covering ten acres, or four blocks, in the centre of the city. By getting on the street car and travelling eastward he passes through wide streets bordered by rows of trees and boulevards on each side, until he reaches Henderson Park, which covers 200 acres and contains a beautiful artificial lake nearly a mile long, on which there is sailing, rowing and swimming in the summer, and skating in winter.

The street railways system, owned by the city, stretches over eleven miles, and there are two miles of paved roads.

The lighting system is by electricity supplied by a municipally owned power plant, which is one of the most up-to-date and economical in Western Canada, the fuel used being supplied by a municipally-owned mine within a stone's throw of the plant. This enables the city to sell electric current for lighting and industrial purposes at very attractive rates.

The telephone system embraces the latest models of automatic phones, and is owned and operated by the Alberta

Government. The water supply comes from the Old Man River, which has its head-waters in the Canadian Rockies, and affords a never-failing supply of water. The water comes through an up-to-date filtration system, and is then forced up the banks of the river into large mains and distributed throughout the city. The waterworks are owned and operated by the city.

The city government of Lethbridge has been progressive. Lethbridge is the first city in Western Canada to adopt the Commission form of government. Three commissioners with defined responsibilities, and giving their whole time to official duties, administer all the municipal affairs.

This city has a fine class of school buildings for the 2,700 pupils. The schools are all constructed of brick, with stone or cement foundations. They are equipped with all modern conveniences, and consist of eight public schools, one Roman Catholic separate school, one manual training school, one kindergarten school and one high school. Pupils from the Lethbridge schools have demonstrated the efficiency of the tuition provided by taking premier place in the provincial competitions.

Several Churches, representing the various denominations, care for the spiritual needs of the people of Lethbridge. Many of the church buildings are quite imposing edifices that would be creditable to the people of a much larger and older city than Lethbridge. The L. Y. P. C. A. headquarters is a large up-to-date building, with club rooms swimming pool, dormitories, etc.

The size and style of the public buildings, banks, and many of the office blocks indicates a faith in the future, shared alike by the governments of the Dominion and the Province, the financial concerns, the merchants and the public generally.

The discovery of natural gas has lately provided another valuable attraction for Lethbridge. The city is well piped, the pressure is strong, the quality good and the cost to consumers very low.

This city is situated in the centre of a vast agricultural and coal mining area, and affords ample opportunities for the investor in various lines, such as mining, agriculture, dairying, milling, clay products manufacture, manufacture of flax products, soap manufacturing and various other lines.

Lethbridge commands the eastern entrance to the Crow's Nest Pass through the Rocky Mountains. Between the city and the mountains, for some seventy-five miles, stretches a fertile plain, the western border of the great prairies. Across this plain the mountains are easily visible from Lethbridge.

#31

LETHBRIDGE—Cont.

Eastward the same wonderful prairie stretches to Winnipeg, and southward to the international boundary. The agricultural products of this vast and fertile prairie require an outlet to the Western United States, British Columbia and through the Pacific Coast ports to the world's markets. The most important channel for this commerce is through Lethbridge and the Crow's Nest Pass.

At Lethbridge, mills, elevators, factories, wholesale houses and stores required for the storage, manufacturing, marketing and shipping of this growing business are being provided as the traffic develops. The Canadian Pacific Railway completed its lines through the Crow's Nest Pass to Vancouver in 1916. This route from Winnipeg to Vancouver through Lethbridge and the Crow's Nest is shorter than the line through Calgary and the Kicking Horse Pass. The line through the Crow's Nest to the Kootenay and Columbia Valley country of British Columbia and via Kingsgate to the States of Washington Oregon and California now serves a large and growing traffic.

Fruit, produce, forest and mineral products from three localities, the imported merchandise intended for consumption by the rapidly increasing population of the great prairies are finding Lethbridge the logical gateway and the most convenient point for storage, assembling, assorting, marketing and re-shipping.

Lethbridge is likewise in command of a most important railway line to and from the United States via Coult's. The freer trade relations between Canada and the United States constantly promote the importance of this traffic. Lethbridge will also presently command the short line via Weyburn and Portal to and from Northwestern Canada and the Dakotas, Minnesota and the Central United States.

IMPORTANT FACTS ABOUT LETHBRIDGE

Population 13,000 (City estimation).
Altitude 2,950 feet.
8 Public Schools. 12 Churches.
7 Banks.
4 Hospitals.
Public Library. \$75,000.00 L. Y. P. C. A.
3 Parks, covering 314 acres.
\$1,000,000.00 Municipally Owned Exhibition Buildings.
\$1,000,000.00 Municipally Owned Exhibition.
36 miles of wide, graded streets.
40 miles of Sewers and Water Mains.

Lloyd Mrs G L postmistress

LLOYDMINSTER

a P. O. and station on the C.N.R., Edmonton-Winnipeg lines, 40 miles east of Vermilion, 169 miles east of Edmonton and 181 miles west of Saskatoon, and on the new C. P. R. line from Wilkie to Whitford Lake. This line when completed will reach Edmonton on the south side. It was opened on August 9th 1926, and has a very commodious and up-to-date station-house, with ample yardage and freight sheds, round house, etc. A new \$18,000 municipal hall is in course of erection, and a large covered rink (\$12,000) is to be completed by Dec. 20th 1927. A number of other stores and buildings have been erected during the year. Alberta Govt. Telephone offices. The town is divided by the Meridian Road between the provinces of Alberta and Saskatchewan. The post office and major portion of the business firms are on the Saskatchewan side of the Meridian Line Road while the station, telephone exchange and Alberta Hall are on the Alberta side. The town has several brick buildings and presents quite a prosperous business appearance. The entire population of 1700 is English speaking. The town has a creamery, the output of which is some three hundred thousand pounds annually. Five elevators (capacity 125,000 bushels), a flour mill, 125 barrels. The Canadian Bank of Commerce and Royal Bank of Canada both have their own buildings. A free municipal hospital, high and public schools, churches of all denominations are represented. A continuous telephone and electric light service is in operation, and in fact Lloydminster is well represented in all lines of business that a prosperous town requires for the convenience of its residents. The town and district is well taken care of from a news point of view by the Lloydminster Times.

FARMING

The district is one of the finest mixed farming districts in Western Canada. The country is gently undulating, varying from parkland to open sections, suitable for tractor farming, and is freely interspersed with creek springs and lakes, which in season are besieged by sporting birds which make them a veritable hunter's paradise.

The soil is black loam from 8 to 16 inches deep, on a brown clay subsoil. There is practically no stone.

There is no hardpan or alkali.

The uncultivated land is covered with a rich growth of grass, vetch and peavine.

There is abundance of moisture.

Good well water is easily secured.

The district is free from hail.

The Lloydminster farmers hold 65 Provincial and International prizes for grain.

The Lloydminster farmers won the Shield for the best wheat, oats and

Dominates Central and Southern Alberta as a Carrier of Authentic News
and Reliable Advertising

LLOYDMINSTER—Cont.

barley grown in the Province of Saskatchewan during 1918.

Seed grain is shipped from Lloydminster to all parts of America.

One half of the cultivated land is sown to wheat. Many fields have yielded 45 bushels of wheat per acre.

Fall rye is grown very successfully here.

Barley of all varieties yields very heavy crops here.

Flax grows here, and is a very profitable crop.

Lloydminster holds the World's Prize for oats. Many fields of oats have threshed as high as 120 bushels per acre.

WORLD'S PRIZE FOR OATS

The Colorado Silver Trophy, valued at \$4,000, awarded by the State of Colorado, U.S.A., was won at the Corn Show in 1911, and also in 1913 at Columbus, Ohio, U.S.A., by Messrs. J. C. Hill and Sons Lloydminster farmers. It was won for the third and final time by Messrs. J. C. Hill & Sons from 1,300 competitors drawn from all parts of Canada and the United States in 1914, at Dallas, Texas, U.S.A. It thus became the permanent property of Messrs. J. C. Hill & Sons, of Lloydminster. This is the World's Prize for Oats.

THE CANADIAN PRIZE FOR OATS

The Brackman-Ker Silver Trophy, presented by the Brackman-Ker Milling Company for the best milling oats grown in Canada, was won three successive times by Mr. C. H. Barrett, a Lloydminster farmer, at the Alberta Provincial Seed Grain Fair at Calgary, and this Trophy now remains permanently in Lloydminster. This is the Canadian prize for oats.

Alfalfa, timothy, brome and western rye grass grow plentifully here. Sunflowers grown here for silage yielded upwards of 20 tons to the acre.

LIVE STOCK

In December, 1920 and 1921, Messrs. L. Weaver & Sons, of Lloydminster, won the Clydesdale Grand Championship at the Chicago International Fair with their Canadian bred horse, "Wee Donald," and in 1921, Grand Champion at Guelph Stock Show.

Five carloads of live stock are shipped from here each week.

The district is producing splendid live stock.

Cattle, sheep, and horses live outside all winter.

Three-year-old grass fed steers weigh 1,600 pounds.

DAIRYING

The Lloydminster Co-operative Creamery manufactures 300,000 pounds of butter per year.

LAND VALUES

Improved and unimproved land can be purchased here, either direct from the owners or through any of the local land brokers.

We need more settlers for our farm lands. The district is large and offers an unequalled opportunity.

The Secretary of the Board of Trade will be pleased to furnish you with further information regarding this district. For further information write—

MACLEOD

a P.O., station and incorporated town of about 1,800 population. It is a centre of the ranching industry for Southern Alberta. It is at the south terminus of the C. & E. branch line of the C.P.R., about 15 miles east of the foothills of the Rockies. It is about 109 miles south of Calgary, to which there is an excellent motor trail. It is about 32 miles west of Lethbridge. There is an excellent motor route to Lethbridge. It is 50 miles from the Montana border. Macleod is on the main line of the motor road from Montana to Banff. About 50 miles to the southwest is Waterton Park, now being developed by the Government for a summer resort and which is one of the most beautiful summer resorts in Canada. At present the Government has launched an irrigation scheme to include the lands north and

City of Medicine Hat

LOCATION

Medicine Hat is beautifully situated on the banks of the Saskatchewan River, and in the heart of the rich prairie country known as "Sunny Alberta."

The city possesses several special features which tend to make it a thriving and prosperous centre. On account of the cheap fuel obtained from its natural gas field, Medicine Hat has become the chief manufacturing centre of the Western Provinces. It is located about midway between Calgary and Moose Jaw, and hence is the distributing centre for a large and rich area of country. The school system of the city is one of the very best. The health of the city is good, much credit for which is due to the excellent water system and to the fine climate of this part of Western Canada.

NATURAL GAS

The city's greatest asset, its natural gas, immediately attracts the attention of the visitor, and the following questions come to his mind in regard to it: What is the composition of this gas? What is its origin, and of what use is it?

Medicine Hat natural gas is noted for its purity. It is composed principally of methane, otherwise known as marsh gas, fire damp, or light carburetted hydrogen. In most localities of its occurrence, natural gas has 80 to 90 per cent. methane, the remainder of the gas being made up of heavier hydrocarbons and air constituents. In many cases the heavier hydrocarbons are capable of condensation as "natural gas gasoline." Medicine Hat natural gas, however, contains 92 to 95 per cent. methane, and is known as a "dry gas" having insufficient moisture or heavier hydrocarbons to cause any trouble in pipes from condensation and freezing.

Methane is composed of the chemical elements, carbon and hydrogen, in proportions by weight of three of carbon to one of hydrogen. Hydrogen is our lightest known gas, and is noted for the heat of its flame. Next to pure hydrogen, methane has the highest power of all common gases. Householders find that at 25 cents per thousand cubic feet, (the price charged in Medicine Hat) a house can be heated for less than half what it would cost to heat with anthracite coal at \$7.00 per ton. Since manufacturers secure a rate of 6½ to 3 cents per thousand cubic feet, it is little to be wondered that Medicine Hat has become the manufacturing centre of the West.

HEAT, POWER AND ELECTRICITY

The following rates for heat, light and power obtaining in Medicine Hat will enable one to judge of the practical value of the natural gas.

It is municipally owned, and is the only fuel used in the city for domestic use. The citizen is charged 25 cents per thousand cubic feet, while the rates for manufacturers are 3 to 6½ cents per thousand cubic feet, according to the amount used.

The manufacturing possibilities of Medicine Hat natural gas are exceptional, not only from a fuel standpoint, but also when we consider what can be made from the gas itself. Owing to its purity, the gas can be used in manufacturing processes not possible in the majority of natural gas localities.

The gas, again, is used for the production of electric current in the city's up-to-date power plant. This electric current for lighting and power is supplied at rates varying from 1 cent to 10 cents per kw. hr., according to the consumption.

COAL DEPOSITS

Within a few miles of the city limits are vast quantities of high grade lignite coal, which is being mined and distributed to the surrounding country at an exceptionally low cost to the consumer.

RAILWAYS

Medicine Hat is a divisional point of the Canadian Pacific Railway is at the junction of this company's main line with the Crow's Nest Line, and has connection also with the Soo line of the same system. There are eight hundred C. P. R. employees resident of Medicine Hat, inclusive of those working out of this city. The monthly payroll for the Division, with headquarters here is \$200,000.

The CANADIAN NATIONAL RAILWAY has purchased right of way into the city, also property for its terminals, yards and shops. The Hanna-Medicine Hat Branch is under operation from Hanna to the Red Deer River and grading is completed from this point to Redcliff.

ELEVATOR CAPACITY OF MEDICINE HAT MILLS

Compiled by, Medicine Hat Chamber of Commerce, January, 1925.

Name of Company	Bushels capacity
Alberta Linseed Oil Co. Ltd.....	55,000
Maple Leaf Milling Co.....	175,000
Lake of the Woods Milling Co. Ltd.	250,000
Ogilvie Flour Mills Co. Ltd.....	500,000
Total capacity	980,000

PUBLIC SCHOOL SYSTEM

The most remarkable feature of Medicine Hat's development from town to city proportions is the way in which good and sufficient organization in every department of community life has kept pace with the rapid growth.

A well chosen staff of teachers meets the educational requirements of a progressive management. Those in charge of the more important departments of school work, as in the primary, public school leaving and high school classes are exceptionally well qualified teachers, capable of giving superior service in the class room. The administration of school affairs is thoroughly systematized, with properly proportioned responsibility resting upon the Board of Control, superintendent, principals, teachers, school officials, janitors and pupils. Efficiency has been proved in

Directory advertising is before the public of your city every day

475

MEDICINE HAT—Cont.

the capable manner in which a rapidly growing school population has been received, accomodation well graded and in all respects well provided for.

THE CHURCHES

We are proud of the commercial and educational institutions of our city, and with these the religious needs of the community have not been neglected. All Christian denominations are well represented, the city possesses several imposing church edifices. Among the denominations are Anglican, Presbyterian, Roman Catholic, Methodist, Christian Science, Baptist and Lutheran.

GENERAL HOSPITAL

This is an institution of which many cities much larger in population might well be proud. It serves a large area of country as well as the city, and is noted for its high standard of efficiency in every department.

WATER SUPPLY

Hardly less important than the churches, schools and hospital, for the welfare of the community, is a pure and adequate supply of water. This Medicine Hat can lay claim to. The water is taken from the Saskatchewan River at a point three miles above the city, and passes through an up-to-date system of purification before being used.

BANKING INSTITUTIONS

Branches of the following chartered banks are located in this city: Montreal, Royal, Dominion and Canadian Bank of Commerce.

The bank clearings show the substantial financial growth of the city. We give the returns showing the years:

1923	17,688,504.00
1924	16,463,676.00

WHOLESALE CENTRE

Situated, as Medicine Hat is, in centre of a large farming and stock raising area, the city must of necessity become the headquarters of numerous wholesale houses, some ten being already located here.

STOCK RAISING

Since the first settlement of the Great West country, stock raising has always been an important industry in Southern Alberta. The wide expanse of grassy plains, broken only by streams of pure water from the hills made it a veritable paradise for the big rancher and his fearless cowboy riders.

The last decade has seen large areas of this range land thrown open to the homesteader, and the grain grower now occupies much of the land on which roamed the big herds of horses and cattle. The grain grower is giving attention to stock raising, and it will always continue to be very important, if not the most important, industry in a country so well adapted for it.

Meteorological records show the average temperature for the growing season in this belt to be the same as it is in Southern Montana.

MOOSWA

(Now called Lindberg)

MORINVILLE

a P.O. and station on the C.N.R. Athabaska branch, and E.D. & B.C. Ry., 22 miles north of Edmonton, on S33 T55 R25 W4, in Edmonton West Prov. Elec. Div. It is surrounded by an excellent mixed farming country and is a business centre for a farming community 50 miles west and is also a good mining district, the Cardiff Collieries being situated 4 miles east. There is a good real live Board of Trade here. According to land seekers, Portage la Prairie is the only farming district compared with the surrounding district here. The population of the town is about 600.

MUNDARE

a P.O. and station on C.N.R. Edmonton-Winnipeg line, in Vegreville Prov. Elec. Div., 59 miles east of Edmonton and 14 miles west of Vegreville, in the centre of a very rich mixed farming district. It is conceded to be one of the best business towns east of the City of Edmonton on this line. It has five elevators, capable of holding 325,000 bushels of grain. Notwithstanding this fact, these elevators are taxed to their utmost capacity.

The farmers, with a keen eye to business, prefer to market their grain where they will get the best value for their money; hence Mundare's reputation for bargains attracts the farmers from the vast hinterland to the north. There is a splendid flour mill which is kept busy all the year. Mundare boasts two banks, the Bank of Montreal and the Standard, with large staffs to handle the business. Mundare is particularly proud of its hotel accommodation; the hotel is one of the most up-to-date hostleries in the Province of Alberta. The Provincial highway through Edmonton and Jasper Park passes through Mundare. Mundare has gravelled its street on the route of the highway.

The educational requirements are amply provided for by two large schools of eight rooms, and a very efficient staff of public and high school teachers. There is a splendid hall which caters to the social wants of the community. There are three big churches. The town keeps long stretches of sidewalks, both concrete and wooden, in good repair. It has also ample fire protection.

The soil around the town is a rich black loam, and gives a magnificent yield. The main crops grown are wheat, oats and barley, but the district lends itself particularly to mixed farming. The district around Mundare is famous for its big yields of grain—wheat yielding as high as 53 bushels per acre, and oats often over 100 bushels per acre.

The cheques paid for cattle and hogs shipped during the year average over \$10,000 per week.

Mundare has numerous stores, two lumber yards, two garages and three blacksmith shops, all of which are doing a good business. The majority of the people are of Ukrainian descent. They are an industrious, hard-working people, who appreciate the opportunities accorded them of becoming independent in Alberta. Population 1,000.

NANTON

a P.O. and incorporated town on S15 R16 R28 W4, in Macleod Prov. Elec. Div., on the C.P.R. Calgary-Macleod line, and on the Calgary-Edmonton-Macleod-Banff automobile road, 56 miles south of Calgary, 54 miles north of Macleod and 27 miles west of Vulcan. Has C.P.R. agent and telegraph and express and Alberta Govt. Phones, hydro-electric light and power, natural gas for cooking and heating at 38 cents per thousand.

Nanton is one of the old and well-established towns of Southern Alberta, and is surrounded by one of the best grain-growing, mixed farming and stock raising districts in the province. As high as 72 bushels of wheat and 125 bushels of oats to the acre have been threshed in the district, while a conservative yearly average of wheat is from 25 to 30 bushels to the acre, and oats will average from 60 to 70 bushels.

Nanton has four churches, a consolidated school with ten teachers, district court, town hall and fire department, two moving picture theatres and seven grain elevators.

Nanton as a town is in exceptionally fine condition, no debentures or interest being overdue, and the town has a nice balance to its credit in the bank. Population between 700 and 800.

NINASTOKO

a siding on the C.P.R. Wilkie-Clandon-
ald branch 4 miles from Cardston on the
C.P.R. and located on the Blood Indian
Reserve. This siding serves St. Pauls
Residential School for Indian children.
There is no village or settlement except
the school. Indian farmers may event-
ually wish to load wheat at this point
and perhaps an elevator would then be
built by one of the line companies or by
Indian Dept. At present, wheat is
hailed to Cardston for shipment.
C P R agent

NORTHCLIFFE

a siding on the C.P.R. Macleod-Great Falls branch, 7½ miles west of Card-ston, Alta. Located in the Blood Indian Reserve and surrounded by rolling country adapted and used by the In-dians for ranching purposes. It is about straight north of the village of Leavitt and could be used by farmers of that district to handle their grain but as the Leavitt district is mostly populated by cattle and sheep ranchers and is not very well suited for wheat raising, it is unlikely that elevators will be required at Northcliffe.

NOTIKEWIN

(Formerly Battle River Prairie)
a P.O. on SE Sec 33-91-23- W5, in the Peace River Prov. Elec. Div., about 65 miles N. W. of Peace River Town and 55 miles from Grimshaw Station on the E. D. & B. C. Ry. Served in summer by boats. The Hudson Bay and the mail boat about 15 miles from the landing on the Peace River. There is a good winter road to Grimshaw and Peace River trapping is still fairly good. Settlers are coming fast. There are about 200 homesteads taken and hundreds of good quarters of mostly open prairie are still open for settlers. Soil is of the very best for grain growing. Wheat yield about 50 bushels and oats up to 110 bushels. Vegetables grow good. We had no summer frost for the last seven years and always enough moisture to grow good crops. A school house is under construction. Medical attendance is under consideration, also churches. A good wagon road is under construction to railroad. The open land is about 10 by 20 miles, surrounded for miles by partly open land with young growth of poplars. Good building timber is available about 6 miles northwest of the settlement. We have two sawmills in operation.

OKOTOKS

a P.O. and incorporated town on the C.P.R. Calgary-Lethbridge and Calgary-Macleod lines, 28 miles south of Calgary, having four passenger trains daily in either direction. Has C.P.R. agent, telegraph and express, Alberta Govt telephones and electric lights. The town is conveniently located on the trunk automobile road between Calgary and Macleod. It is surrounded by ideal mixed farming lands, ranging around \$30 per acre according to extent of improvements. The country is well watered and ranching is extensively followed to the foothills about 25 miles west of town. The town is the shipping point for large quantities of gasoline and by-products of the Okotoks Oil Fields, located about 15 miles west of the town, discovered in 1914. Large coal deposits and other minerals are to be found in the adjacent foothills and development work in the coal fields is being done at the present by Mr. P. Burns, the Calgary cattle king. Lying on the banks of Sheep Creek, abundance of water is available and ideal locations for almost any kind of industry are available at very reasonable prices. The trunk line of the Canadian Western Natural Gas Co. is connected with the town of Okotoks and supplies fuel to the residences and factories. Population 500.

OLD SPRUCE GROVE

an Alta Govt Phone exchange in West Edmonton Prov. Elec. Div., connected with Edmonton and serving surrounding farming district.

OLDS

a P.O. and town on C. & E. branch of the C.P.R., in Olds Prov. Elec. Div., 58 miles north of Calgary and 140 south of Edmonton. Has C.P.R. telegraph, C. P. Express and Alberta Govt. telephone offices, electric light plant, 5 churches, 2 creameries, 7 elevators, Prov. Govt. agricultural college and demonstration farm with large dormitory for two hundred students, teaching farming and domestic science free. Has public and high schools employing a staff of 9 teachers, and two fine parks. The soil is heavy black loam and values for raw land run from \$15 to \$40 per acre, and for improved farms \$25 to \$100. Olds is not in the dry belt, and crop failure is unknown. Mixed farming includes stock, dairying and grain. Population 1,000.

PEACE RIVER

Peace River is situated in a very advantageous position on the banks of the great river of the same name at the junction of the Smoky and Hart tributaries to that greatest of Albertan rivers.

It is 315 miles northwest of Edmonton and is reached by the E.D. & B.C. Railway to McLennan Junction and then the Canada Central Ry. for 50 miles north into the town.

Peace River has a population of 350 and this is a permanent population, not the transient residents of pioneer days. The growth of the town is gradual and stable and the people are progressive. Owing to its geographical position, its transportation facilities and its natural wealth, Peace River is bound to be the centre of the great development to take place in the Great Peace River District.

The Public School is a five-roomed one and High School work is taught up to Grade Eleven. Also two one-roomed schools for Juniors.

The Central Dominion Lands Office for the P. R. district is located here and the business is increasing so that the staff has been increased to eight this past year.

The Peace River Board of Trade is an energetic body of business men and is assisting in every possible way to aid the prospective settler and to build up the country tributary to the town. Nearly 100 local members.

Excellent farming land extends from the west side of the river right through to Dunvegan, the Sixth Meridian being located midway. The chief centres of settlement in this part are: West Peace River, Shaftesbury, Bear Lake, Paul's Corners, and Griffin Creek. North of West Peace River and Bear Lake there is good land open for settlement as far as Whitemud River. A wagon road extends farther north to Battle or Notikewin River. There is excellent prairie land here, surrounded by fairly heavy timber. This district is being taken up rapidly. During the season of navigation the Battle prairies can be easily reached by steamer. A wagon road leads from the steamboat landing near the mouth of the river into the heart of the prairie, a distance of 25 to 30 miles. Supplies are available at the trading post at the landing.

The land surrounding the town of Peace River, on the same side of the river, is rough and broken by the junction of the Smoky and the Hart rivers with the Peace. There is, however, much good grazing land in numerous valleys and ravines. On the plateau above the valleys the soil is good but mostly wooded, and has some muskeg and marsh.

Development of oil fields is temporarily at a stand still.

PEACE RIVER—Cont.

The Peace River valley is very rich in natural mineral deposits awaiting development and are attracting capitalists from all parts of Canada and the United States.

A company has machinery on the upper reaches of the River to develop the Carbon Black deposits at Peace River, the Dom. Govt. having granted eight townships to them for development work. Construction of a Dock at Peace River is now contemplated by the Dominion Government.

Peace River boasts one of the finest river steamers in Canada, the "D. A. Thomas." The amount of river traffic and river tourist travel is increasing yearly and is adequately handled by the above named company. The river is navigated for about 300 miles each way from Peace River, the centre of navigation and the railway terminus. Many ranchers are going by stream into the rich grazing land in the Peace River Block and are adequately served during the navigation season by the excellent river service. Down stream the settlements of Battle River and Fort Vermilion have a natural outlet by the river and hundreds of tons of freight are transported each year to supply the pioneer explorers and traders who go even beyond the Arctic circle and penetrate the land of the midnight sun.

The building of the large steel railway bridge over the Peace River at the town has opened the gate to the development of vast areas to the north and west. The railway has been extended to Whitelaw, 40 miles west of the town of Peace River and further extensions are now contemplated with a view to securing a Pacific Coast outlet, while the vast unsettled area on the west side of the river from Peace River to the Battle River settlement is being invaded by the homeseekers and pioneers and the town will be the chief distributing point of a territory larger than that today served by either of the larger centres, Edmonton or Calgary.

PINCHER CREEK

a P.O. and town of 1,100 population, situated 2½ miles south of Pincher on the Crow's Nest line of the C.P.R., 30 miles west of Macleod and 40 miles east of Crow's Nest on the British Columbia boundary, and is 105 miles due south of Calgary. It is the centre of a large and prosperous farming and stock-raising community. All classes of grain are grown, both winter and spring wheat yielding from 25 to 50 bushels per acre. Dairy farming is very successful.

There is a good automobile road to the Waterton Lakes Park, 35 miles south of the town, which the Dominion Govt is developing into a beautiful summer resort.

Pincher Creek is one of the oldest communities in the province; the first store was started in the spring of 1883, and the town was incorporated in 1906, and is financially in first class shape. Debenture payments are promptly met, as well as all current liabilities, the per capita debt of the town including public utilities debt amounting to less than \$35.

The town has a large four-room public school, also separate school, and the high school taking up grades nine to twelve, in the upper storey of the Municipal Building. The electric light plant is owned and operated by the town, operating a 24 hour service. There is a gravity water system in the town owned by a private company which gives an abundant supply of first class water for domestic use, and a fair pressure for fire protection. This system has been in operation since 1905.

All classes of business are represented in the town. There are three large garages fully equipped, and a first-class machine shop that can handle almost any class of repair work. There is a large concert and dance hall, and an opera house with a seating capacity of 350, in which moving pictures are shown four nights a week, while travelling troupes pay frequent visits.

The park, consisting of twenty acres is owned by the town and is used for all classes of athletics, also horse racing; there is a curling rink with two curling sheets, and a large open air hockey rink; the golf links also adjoin the town on the west.

The town boasts two first-class hotels which cater to the wants and wishes of the traveller, tourist and prospective settler, as well as to the ever-increasing flow of hunters and fishermen. Busses from the hotels meet all trains.

The municipal sec-treas will gladly furnish any desired information to prospective tourists or settlers.

POCAHONTAS

is on the main line of the old G.T.P., the C.N.R. is the main line through here now, and is on the north side of the Athabasca River, so that all persons wanting to go to the Hot Springs, about 12 miles from Pocahontas, have to get off at Miette Station, in a direct line for Pocahontas as the crow flies, walk to the river and be ferried over. There are two packing outfits and guides here at Pocahontas in the summer, who have boats and meet all trains. Pocahontas and the Hot Springs are also reached by auto from Jasper, then take saddle horses to the springs.

Div., on the C.P.R., 60 miles south of Edmonton, and 137 miles north of Calgary, and 22 miles south of Wetaskiwin, and 17 miles north of Lacombe. Has C.P.R. agt, C.P.R. telegraph, Alberta Govt Telephones and C. P. Express. It is a thriving town with a population of about 800, and is surrounded by a well settled district of prosperous farmers who are employed chiefly in mixed farming. There are two cream stations, one cheese factory, five elevators, one high school with efficient teachers and well equipped to serve the educational needs of the town and district. The Provincial Hospital for the Insane is situated about two miles from the town and employs a staff of about 150 men and women. An idea of the potential wealth of the town and district can be obtained from statistics which have been taken from a reliable source. During the year of 1928 there were about 1,000,000 bushels of wheat; 500,000 bushels of oats; 150,000 bushels of barley, and a small amount of rye shipped from this district. In addition to these, there was considerable grain kept by the farmers and used for feeding hogs and cattle. During the same year there was in the neighborhood of \$300,000.00 worth of hogs; \$250,000.00 worth of cattle and \$25,000.00 worth of sheep marketed. The soil in this neighborhood is chocolate loam with a clay subsoil and moderately wooded with poplar and balm. Unimproved land may

Prov. Elec. Div., reached by stage from
Junkins, on the C.N.R., 6½ miles south,
the nearest railway station and tele-
graph and telephone point. Has public
school. Mixed farming. There are 100
farmers in the vicinity.
Sether Mrs J postmistress

RAYMOND

was incorporated in 1903. The first
settlers came in 1901. In July, 1902
the Ellison Milling and Elevator Co.
commenced their enterprises and by
harvest time the farmers were able
to market their cereals at home and
also to receive flour from their home
grown wheat. The Canadian Sugar
Factories Ltd has established a million
and a half dollar plant here on the out-
skirts of the town. Beets are supplied
to the mill from a large surrounding
area, and beets are grown by approxi-
mately 750 farmers. This calls for a
tremendous amount of employment dur-
ing the beet growing season. A Pro-
vincial School of Agriculture and Ex-
perimental Farm is proving of much
value to our community, and has a
yearly attendance of over 100 pupils.

Raymond has grown steadily and the
population is now around 2,000 people.
Raymond is eighteen miles south of
Lethbridge, 12 miles east of Magrath
and 6 miles west of Stirling. There
are also good roads going to Montana,
Glacier National Park and the Water-
ton Lakes Park.

Running in an easterly direction from
the south and west of Raymond is a
large irrigation canal owned by the
Canadian Pacific Railway Co. This
water serves many of the farmers of
Raymond. Irrigation has been so help-
ful for crop growth that many farmers
not now receiving irrigation water are
anxious for it and arrangements are
now under way to increase this needed
moisture. Two miles south of Ray-

mond is situated the "Key" for the increasing of our water supply by storage the Raymond Reservoir, having a capacity for 17,000 acre feet of water. Joining this reservoir on the east is another known as the Milk River Reservoir, having a capacity for 79,000 feet of water. At the present these reservoir sites are held by the C.P.R., but it is expected that these storage basins will soon be put into use and that more than 50,000 acres of land may soon be irrigated and enriched by the use of these natural storage basins. The water to fill them may come from the Milk River, which finally flows into Montana, or it may be filled by the water from the St. Mary's River.

Raymond has a municipally owned water system. It is supplied with electricity for lighting and cooking and power purposes by the Mid-West Utilities Ltd with a 24 hour service.

Raymond has the best opera house and dancing pavilion in the West, the spring floor being a great attraction, causing many visitors to join with us in our amusements. It is also the home of the Stampede in Alberta.

Besides having one hundred thousand dollars invested in an Agricultural College, Raymond also has a high school and a district school, each costing around fifty thousand dollars.

There are two Church of Jesus Christ and Latter Day Saints churches and one Presbyterian church used regularly for service, also a Catholic church erected in 1927.

The Raymond people are industrious. They have some of the best live stock one can buy. Raymond is an ideal farming district. Several car loads of vegetable produce leave this district yearly and the enormous wheat crop grown each year more than fills the buildings of the three elevator companies now operating. Raymond farmers have upon several occasions secured world prizes for yield and quality of wheat produced.

The People of Raymond are always pleased to make visitors welcome. Any time further information may be had by writing to the Secretary of the Raymond Board of Trade.

F. T. HOLT,

Sec. Board of Trade.

RECO

a P.O. on S19, T47, R19, W5, in Peace River Prov. Elec. Div.
Ashburner E postmaster
Matanovich Chris gen store

RED DEER

the Midway City, has an area of 900 acres and a population of 3,000, in and adjoining the corporate limits. It is on the Calgary and Edmonton branch of the C.P.R. about half way between these two cities. It is the terminus of the Alberta Central branch of the C. P. R. and Red Deer is also connected with the Brazeau branch of the C.N.R. Has C.P.R. Agt., C.P.R. Telegraph, Alberta Govt. Telephones and Can. Pac. Express Offices. C. N. Ry agent and Canadian Express agent.

Being the largest town between Calgary and Edmonton, with three railway lines serving the district, it is the natural wholesale distributing point for Central Alberta. Two wholesale grocers have warehouses here and there are good openings for other wholesale lines such as hardware, boots and shoes, etc. The Imperial Oil Co. have recently erected two 100,000 gallon oil tanks and warehouse. Headquarters for Central Alberta Farmers Co-op Shipping Assn., egg collection station for Govt. Co-op Egg Marketing Assn., a brick manufacturing plant and tent and mattress factory are in operation, and there is a candy factory, Liquor Vendors, store and distributing warehouse for breweries, and a large lumber mill located here, which is not at present operating.

Red Deer is the centre of the mixed farming and dairying part of Alberta, many creameries and cheese factories operating in the district, and some of the best dairy herds in Canada are owned near here. This district being wooded and with a deep clay subsoil produces good crops of hay and grain year after year without failure, even when other parts of the West suffer from drought.

Red Deer is admitted to be the most beautiful residential town in Alberta, having all modern conveniences, electric light and power, waterworks, sewers, cement walks, boulevards, a 40-bed municipal hospital, Roman Catholic Convent with about 100 pupils, four public and one high school, the Provincial Training Institute with over 100 pupils, and the principal training farm for returned soldiers who wish to take up land under the soldiers settlement

REARVILLE

a P.O. and village on S33 T25 R7 W4, in Acadia Prov. Elec. Div., 20 miles south of Chinook, which is on the C.N. R. the business and banking centre and nearest telegraph and express office. Farming and stock-raising.

plan. Large exhibition grounds and buildings are owned by the city and 80 acres of natural parks. Within a short distance are two fine summer resorts Sylvan Lake, 14 miles west, and Pine Lake, 25 miles east. Good shooting and fishing is obtainable close to town and all branches of sport are represented—golf, tennis, football and baseball in summer, and curling, hockey and skating in winter. Red Deer has commission government and with all its modern conveniences, its debenture debt is comparatively low, and the taxes are lower than in any town of similar size in Western Canada having the same conveniences. It is a desirable place to live in, with its natural beauties, improvements and fine educational facilities and attracts many families as residents. It will make steady growth and remain the best town in Alberta.

REDCLIFF

a P.O. and town, 6 miles northwest of Medicine Hat and 171 southeast of Calgary, situate on the north bank of the South Saskatchewan River, and on the main line of the C.P.R., also on grade under construction of C.N.R. of Medicine Hat and Hanna line. C.P.R. telegraph, local and long distance Govt. telephones. It is an excellent industrial centre. Level, accessible area makes possible the grouping together of allied industries, with all the advantages of easy shipping and distribution, for a

fraction of the cost involved at other points where natural disadvantages have to be overcome. Has an abundant supply of natural gas, containing 1,100 B.T.H. units per cubic foot. Has one of the largest working coal mines in Western Canada. Has an unlimited supply of high grade shale for brick and other lines of clay products. Has pure water through natural system of filtration. Offers to manufacturers ground floor proposition re site, gas and water supply. Population 1294.

ROCKY MOUNTAIN HOUSE

a P. O., station and incorporated village
on S22 T39 R7 W5, in Red Deer Prov.
Elec. Div., on C.P.R. Red Deer-Locheam
branch, and on C.N.R. Stettler-Brazeau
branch, 60 miles west of Red Deer and
east of Saskatchewan River. Has C.P.R.
and C.N. telegraph, C.P. and C.N. ex-
press offices, Lands, Timber, Prov. Po-
lice and Forestry offices, bank 5-room
public school and high school, Anglican,
Catholic and Presbyterian churches. It
is a mixed farming and dairying coun-
try. The district includes a radius of 20
miles of well-settled country. It is well
sheltered, with good grass and water,
no extremes of cold, and being high,
is healthy. Ranching and lumber is
also carried on, and unlimited water
power is available on the Saskatchewan

River. There are 20,000 to 30,000 acres
open for settlement. Population 600.

ROSEDALE

(See also Aerial)

a station and P.O. on S28 T28 R19 W4,
in Bow River Prov. Elec. Div., on the
C.N.R., 4 miles southwest of Drum-
heller. Has C.N.R. agent, C.N. telegraph
and express, and Alta. Govt. Phones.
Has four public schools. The Rosedale
Coal Mining Co's camp and plant are
situated just across the river. This is
the most complete and up-to-date coal
mining camp in the West. It has model
cottages for the miners, a fine large
community hall, where meetings and
shows are held, a large thoroughly mod-
ern bath and drying house, and a num-
ber of other highly commendable fea-
tures. This mine produces the famous
lower seam Rosedale coal, which is of
the very best quality for domestic and
heating purposes. The company em-
ploys 230 men and has a daily capacity
of 1,100 tons. There are five other
small hand-worked mines in the vicinity,
with a combined capacity of about 150
tons daily. The district is well settled,
and besides coal produces grain and
cattle. Population 600, with about 70
farmers in the vicinity.

SPIRIT RIVER

a P. O. on S.22 T78 R6 W6 in Peace River Prov. Elec. Div., and divisional point on the E. D. & B. C. Railway, 357 miles northwest of Edmonton and 44 miles north of Grande Prairie. Has Govt. telegraph and C. C. Express. It is the geographical and business centre of the whole of the territory which is usually referred to as the Peace River Country. The town has hotels, banks, churches, curling rink, dramatic hall, two fraternal societies, a real live board of trade, splendid business houses which would do credit to towns of much larger population. The town is the trading centre of the entire Peace River District, which lies to the west to a distance of 100 miles, and which includes that splendid portion of British Columbia known as the Pouce Coupe district, and to the north a distance of 50 miles, which includes the Waterhole, Friedenthal, Vanrena and Bluesky districts. The above named districts are the great grain growing districts of the Peace River country and the grain from these districts is marketed at Spirit River, being hauled to that point during the sleighing season. The town is picturesquely situated, overlooking a vast parky valley with its open stretches of grain fields intermixed with bluffs of poplar. The newcomer is surprised to find the extraordinary development which has occurred in the short period that has elapsed since the advent of the railway in the year 1916. This point is the end of steel of the Edmonton, Dunvegan & B. C. Railway, and the transfer point for the branch line of railway to Grande Prairie district, and in due time will no doubt be a railway junction point of importance.

The town suffered a loss by fire in June, 1921, amounting to a quarter of a million dollars, but the destroyed area has been rebuilt with better buildings and better stocks.

The soil, which is uniform over the whole district, is a chocolate vegetable loam, 10 inches deep, with a clay sub-soil, and the usual crops are oats, wheat, barley and some flax. The district is

most suitable to mixed farming as there is a luxurious growth of grasses and the peavine and wild vetch are a revelation to the uninformed. The district is noted, however, for its excellent quality of seed oats, and the wheat generally shows an excellent grade. Some extraordinary heavy yields of grain are recorded. Oats yield generally from 70 to 100 bushels per acre, and a test of one field of oats in 1918 showed 130 bushels to the measured acre. The demand for seed oats from the Prairie Provinces is more than the supply and the result is that the Spirit River farmer gets a high price for his produce. The pioneer settlers were of a very high quality and the result may be seen in the splendid farms, due to a considerable extent to the fine example of husbandry set by the early settlers. Several sawmills are in operation in the district, and a very fine quality of lumber is produced, most of which is taken by the settlers of the district. Numerous seams of coal are known to exist within a reasonable distance, but this industry has not yet been opened up as capital has not investigated the possibilities. The supply of wood for fuel, however, is quite sufficient to meet the requirements of the district for some time. Population of Spirit River is 225, and of the vicinity, 600.

STANGER

a P.O. and settlement on S28 T55 R6 W5, in Peace River Prov. Elec. Div., Municipality of Morthen No. 551, 6 miles south of Lisburn and of Sangudo a thriving business centre. This settlement is situated between two Provincial highways and is well served by good graded roads. Stanger has a new church edifice, a commodious Community hall and three public schools. It is a splendid mixed farming district, has ample natural water supply and good grazing. Alfalfa and other legumes as well as all grasses grow luxuriantly. Owing to freedom from early frosts wheat growing has proved profitable. Improved farms conveniently located may be purchased for from \$10 to \$20 per acre, while a few homesteads are open for entry. Population of district, about 300.

STAVELY

a P.O., station and incorporated town on the Macleod branch of the C.P.R., 72 miles from Calgary, and on the Blue Trail Highway, population 400, chiefly Canadian.

It has C.P.R. telegraph and express office, and Alberta Government 24-hour telephone service. The town has a well equipped modern hotel of brick construction, well stocked general and other stores to supply its wants and that of the surrounding country. Six elevators furnish storage for 325,000 bushels of grain, and two Oil companies have storage tanks and warehouses here for distributing their products.

Modern utilities include Hydro 24-hour electric service supplying current for power, street lighting and domestic uses, and natural gas is in general use throughout the town.

A four-room brick school provides education for the younger generation of the town and immediate neighborhood, with spacious grounds and gymnastic apparatus for their recreation. A handsome covered skating and curling rink is in course of erection which will provide ample room for winter sports. A 9-hole golf course, ball diamond and race track are located in the town's 30 acre park, the whole surrounded by a fine grove of trees.

The town is fortunately situated, being the centre of a prosperous and highly productive wheat belt, and is in addition the market point for many ranchers located in the Willow Creek district.

STERCO

a station and post office situated on S35 T47 R20 W5, in Peace River Prov. Elec. Div., on the C.N.R. Edson-Lovett or Alberta Coal branch. Edson is not the junction point, but Bickerdike, which is nine miles west of Edson, but owing to Edson being a terminal point where trains for this line are made up. It is at present the recognized junction, as there is no accommodation for the travelling public at Bickerdike.

The Imperial Bank has a branch at Edson, but there are no banks at Sterco. Telegraphic facilities have been established, and Sterco is now a "collect" station on the C.N.R. system, lying 37 miles south of Bickerdike and 10 miles north of Lovett.

There are no industries with the exception of coal mining; Sterling Collieries Ltd. owning one of the most remarkable seams in the world. This seam, which is some 280 ft. in depth, and approximately 800 ft. in width, is operated by steam shovels as it stands towering above the level ground, and appears to have been the result of some upheaval. Agriculture is impossible in the immediate vicinity, there being nothing but coal lands situated in the foothills of the Rockies.

STETTLE

a P.O. and station on S5 T39 R19 W4, in Camrose Prov. Elec. Div., on the C.P.R. and C.N.R., 153 miles northeast of Calgary and 112 miles southeast of Edmonton, 50 miles east of Lacombe and 60 miles west of Coronation. C.P.R. and C.N. telegraph. Govt. telephones, C.P. and C.N. Express.

Stettler is a town of about 1,500 population, situated on the Lacombe-Coronation branch of the C.P.R., and on the Calgary-Edmonton branch of the C.N.R. Also the Brazeau branch of the C.N.R. branches out from here, and the Hanna-Stettler branch of the C.N.R. is now in operation.

It is situated in one of the best districts for mixed farming in the province, having the distinction of never having had a crop failure, nor has it ever been short of feed for cattle. To the east is the bald prairie, while in all other directions the land is more or less scrubby. To the north is the famous Buffalo District. Near the lake it becomes hilly, making splendid protection for the stock, while the hills raise splendid crops. This district never has serious hail storms, and is not subject to frosts. During the past few years the farmers and ranchers have made fortunes, and have erected splendid homes with all modern conveniences.

The sheep industry is in its infancy, but has proved a success, and will increase. Cattle run out all winter without shelter and do well. P. Burns & Co. Ltd., have a branch here, and takes care of all the cream. The Stettler Meat Co. has a packing plant in connection, thereby taking care of all meat so that farmers have a ready market for all of their products.

With the two railways running in here on whose tracks there are four elevators, and two loading platforms, there is never a scarcity of cars, which is an important item to the farmer.

The business men of the town are recognized for their progressiveness. The town has passed through the past strenuous years in a very creditable manner, steadily growing and yearly making substantial improvements. It has municipal electric lights, water-works, and sewerage is being provided for. It has a splendid fire system and a good fire brigade.

Owing to its being the largest town within a radius of 50 miles, and also that it has so many branches of railways, it is an established centre for the district, and will consequently continue to grow, and maintain its position, as the recognized business centre for this district. An industrial spur has been built by the C.N.R., which furnishes attractive warehouse and industrial sites.

Has 6 churches, high and public school, town hall, fire hall, two hospitals, agricultural fair grounds and race track. Town owns electric light and water systems. There are several coal mines in vicinity, also good brick clay, sand and gravel. Mixed farming and stock raising. Summer resort at Buffalo Lake, 17 miles north. Tributary population 2,000.

STRATHMORE

an incorporated town on C.P.R. main line, 35 miles east of Calgary and 25 miles northwest of Gleichen, in Bow River Prov. Elec. Div. Is in centre of a productive irrigated district. Strathmore is the headquarters of the C.P.R. Western section of the Bow Valley Irrigation Block, and the company has erected handsome buildings, including administrative offices, clubhouses, work shops and cottages for members of permanent staff. The wage roll for the department centering on Strathmore, was in 1920 approximately \$250,000. The C.P.R. Demonstration Farm comprising 2,000 acres of land, with dairy barns, creamery, silos, power plant, etc is also located here. Strathmore has C.P. Express, C.P.R. telegraph, Alta Govt. Phones, three churches, six-room public and high school, hospital, large Memorial Hall, etc. Population 650. Altitude 3,179 feet. The practice of irrigation throughout the Strathmore district is resulting in the establishment of small farms and intensive cultivation, and the district as a whole has never experienced a crop failure. 3,000 farmers in district.

TABER

a P.O. and town on C.P.R. Crow's Nest line, 81 miles west of Medicine Hat, and 36 miles east of Lethbridge. Has C.P.R. telegraph and local and long distance Govt. telephones, electric lights and water system, municipality-owned

30-bed hospital. There is 22,000 acres of land under irrigation in the district, and the Taber Irrigation Development Assn. has been organized to develop an additional 110,000 acres, between Taber and Grassy Lake. Coal mining is quite extensive.

Farming, stock-raising, dairying and coal mining are all forging ahead in the Taber district. The town has four grain elevators. There is an excellent opening for a creamery, greenhouse and canning factory. Land value \$10.00 to \$80.00 per acre. Irrigation District has been extended between Chin and Barnwell, considerable land having been purchased from Dominion Government and some odd pieces belonging to residents have been taken in. Population 1,500.

TALBOT

a P.O. on S6 738 R9 W4 in Battle River Prov. Elec. Div., reached by stage from Coronation, on the C.P.R., 15 miles southwest, the nearest railway station, telegraph office and business centre. Has telephone office. Grain growing principally. Land well drained, free of

early frosts and fuel convenient. Talbot has a community hall, and advancement is expected in land values, owing to the fact that the wheat matures about one week earlier than other points. Now served with rural telephones.

a P.O. on S27 T60 R9 W4, in Athabaska Prov. Elec. Div., in St. Vincent Municipality. St. Paul de Metis, 18 miles south, is nearest railway station, telegraph office, and St. Vincent, 8 miles southwest, the business centre. Stage from St. Paul de Metis. Has telephone office and public school. Mixed farming. Population 12.

a P.O., station and incorporated village on S22 T31 R24 W4, in Red Deer Prov. Elec. Div., on C.N.R. Calgary-Edmonton line, 172 miles southeast of Edmonton and 70 miles northeast of Calgary, in Jud. Dist. of Calgary. Has public schools, telegraph and telephone offices, bank, Anglican and Presbyterian United and Catholic churches and theatre. Mixed farming, stock-raising and coal mining. Last year 70,000 tons of coal were shipped. An average of 200 tons of lignite coal is being shipped daily. Two million bushels of wheat crop (1927) were shipped from here. A record unequalled at any other point on C.N.R. Population 700, with tributary population of 2,000.

TOFIELD

The town is situated on S1 T51 R19 W4 in Vegreville Prov. Elec. Div., on C.N.R. main line, 40 miles east of Edmonton and is the junction for the Edmonton-Calgary branch. It has a population of 500, excluding the workers at mines, situate just outside the town limit. It has well graded streets, ample sidewalks in both the business and residential sections. The streets are electric-lighted. Has both public and high school, and 4 churches. One of its greatest assets is its plenteous and cheap fuel supply. There are three coal mines operating, two being within one mile of the C.N.R. Depot, which line has spur tracks to each of the

mines. In the winter of 1919-20 from 25 to 30 cars of coal were shipped daily. In the year 1917 the Tofield Mines ranked fifth in production in the Province. Mining operations continue the year round. Agriculturally, Tofield takes second place to none. Tofield draws business from an area extending about 15 miles north, 10 miles east 12 miles south and 15 miles west. In this area there are probably 400 farmers, farming anywhere from a quarter to 2 sections. Practically all are engaged in mixed farming.

VAUXHALL

a P.O. and station on S10 T13 R16 W4, in Medicine Hat Prov. Elec. Div., situated on the Suffield-Blackie branch of the C.P.R. about 70 miles west of Medicine Hat and 60 miles northeast of Lethbridge. It is the centre of a tract of irrigated land known as the Vauxhall Unit of the Bow River Irrigation Project, and the wonderful progress which has been made in the town and the surrounding country during the two years that have elapsed since the first arrival of the irrigation water, show that this is destined to be one of the most prosperous communities in the West. Although the town has only experienced two irrigation seasons, there are already twenty firms doing business here, employing 32 people, and representing an investment of more than \$150,000. Two of the latest firms to establish branches here are the Imperial Oil Co., and the Ogilvie Flour Mills Co. Ltd.

The soil in the district is a medium sandy loam, free from surface rock, containing a large supply of humus. It is particularly well adapted for irrigation purposes, and all kinds of grain, forage and root crops are grown with excellent results. With the steady increase of cultivated lands, and the large yields of forage and vegetable crops, a surplus of produce will accumulate, which it will be necessary to take care of, and therefore in the near future there will be a splendid opportunity in Vauxhall for a canning factory, dehydrating plant and an alfalfa meal mill. Sugar beets do extremely well here, and arrangements could undoubtedly be made to have a sufficiently large acreage planted with these in order to supply a sugar factory.

During the past few years, there has been a shortage of winter feed in the southern part of the province, but with the large yields of alfalfa and other forage crops, it is felt that this territory will prove to be the solution of the winter feed problem, and with an assured supply of feed, it is noticeable that the purebred livestock is getting a strong foothold in the district, there being already some fine herds of Aberdeen Angus cattle and berkshire hogs. Dairy herds are also being started in the district, and here again the excellent yields of alfalfa and the close proximity of railroad facilities, are of vital importance to the producers.

The irrigation water which is supplied to the lands around Vauxhall, is obtained from Bow River, but before reaching these lands, it passes through two large storage reservoirs, with a combined capacity of 330,000 acre feet, which is enough to irrigate the entire acreage under this project for more than one whole irrigation season. These reservoirs, besides safeguarding the

water supply, act as settling basins, and the water is delivered to the Vauxhall lands in a clear warm stream, entirely free from all silt and able to perform its work with the utmost efficiency. These lands lie between two rivers, and slope from the central highlands towards Bow River on the North and Oldman River on the South, with a fall of between ten to thirty feet to the mile. There is no brush or undergrowth, so that clearing is unnecessary and the slope is so uniform that very little preparation is needed in order to render the lands ready to receive water. Unimproved irrigated land is selling at a maximum price of \$55 per acre with full water right, and non-irrigable lands can be bought for grazing purposes at a nominal figure.

will run in a northwesterly direction therefrom.

The town has the usual complement of stores and supply houses of various kinds: branches of the Bk of Montreal and the Can Bank of Commerce; public high and separate schools; convent boarding school, and a Presbyterian Boys and Girls Boarding School; two hospitals, six churches, two hotels, creamery, seven elevators, four stock yards, four lumber yards, sash and door factory, machine shops garages, newspaper flour mill etc.

The Electric Light & Power System is owned and operated by Mid-West Utilities Ltd, one of the subsidiaries of the International Utilities Corporation. This plant is operated by Deisel engines with a horse power capacity of over 500, and current is generated and transmitted from this station to Mundare and intermediate Consumers.

The town operates a complete water-works and sewage system.

The town is a live centre doing business for a very extensive district.

The district adjacent to and for a radius of 50 miles from the town is considered to be one of the best in Central Alberta, being particularly adapted for mixed farming.

It was first settled in the early nineties by a number of French-Canadian farmers from Quebec and Kansas. These formed the nucleus of a community which centred on the town known as "Old Vegreville." In 1905 the construction of the C.N.R. within four miles of the old town caused its abandonment and the business places removed to the site on the railway. From 1905 until the present the progress of the town and district has been uninterrupted. The original settlers have been followed by farmers from Eastern Canada, the United States and Great Britain, while to the north and west of the town there is an extensive settlement of Ukrainians. The land is of a rolling nature, and is well watered. Bluffs of poplar, willow and spruce lend a pleasing diversity to the appearance of the district. Irrigation is not necessary as the rainfall is ample from year to year to insure good crops. Farming is the main industry of the district. Population 2,000.

VERMILION

a P.O. and town on S30 T50 R6 W4, in Battle River Prov. Elec. Div. The town of Vermilion is the first divisional point on the main trans-continental line of the C.N.R., east of Edmonton. It is 698 miles west of Winnipeg and 120 east of Edmonton. It has a population of about 1,500 and is beautifully situated on the banks of the Vermilion River, a pretty little stream winding through the Vermilion valley. The progress of the town has been rapid yet substantial, and its future is unquestioned. It is acknowledged to be one of the prettiest towns in Western Canada, and has conditions which make it an ideal town in which to live. It provides a splendid local market for the country districts tributary to it, and is a distributing centre for a number of the leading wholesale houses in the West, including many of the larger implement companies. As the mercantile and business centre of a large populous and progressive farming district, the town of Vermilion unquestionably has splendid prospects.

Vermilion has a municipally-owned electric light and power plant (24-hour service), sidewalks, local and rural telephone systems, fire hall and fire

apparatus, \$40,000 public school building, Government Demonstration Farm and School of Agriculture; the erection of a new High School building is now proposed, a site has been purchased for the erection of a Court House and also for a Dominion public building to be erected at an estimated cost of \$50,000; it has departmental stores, several general stores, hardware stores, implement dealers, furniture stores, harness and tinsmiths shops, drug stores, fruit and confectionery stores, bakeries, blacksmith and machine shops, meat markets, garages, picture theatre, flour and grist mills, a Burns Creamery Plant, grain elevators, general wholesale, doctors, dentists, lawyers, lumber yards, livery barns, hotels, restaurants, five churches (Anglican, Baptist Presbyterian United Church and Roman Catholic), two banks (The Canadian Bank of Commerce and Royal Bank of Canada), Dominion Land Office, customs house and immigration hall; it is the judicial seat for the district, has two newspapers, a detachment of the Provincial Police, a three-thousand dollar curling rink, a \$10,000 skating rink with gymnasium and showens baths, football, cricket, hockey, tennis, baseball and rifle clubs. The leading secret orders are represented. The town also has a Soldiers' Memorial Hall, and a large and well equipped Municipal Hospital.

The district of Vermilion has a splendid reputation for stock-raising and dairy farming; the increase in dairying the past few years has been most marked, and the industry is rapidly developing into a strong and highly profitable farm pursuit. The crop returns are most satisfactory, the yield per acre being exceptionally good. The district is essentially best adapted to mixed farming. The Secretary of the Board of Trade will be pleased to give any information about the town or district.

VIEWPOINT

a station on the C.N.R. Battle River section, in T45 R20 W4, in Camrose Prov. Elec. Div., 5 miles north of Edberg, the nearest P.O. and telegraph office. Mixed farming. Section crew. Alberta Govt Phones long dist service
C N Express
Home Grain Co.

VIKING

a P.O. and town on S25 T47 R13 W4, in Camrose Prov. Elec. Div., on the main line of the C.N.R., on the Blue Trail, 82 miles southeast of Edmonton. Has public and high schools, C.N. telegraph and express, Alberta Govt. Phone service (continuous), municipal hospital, farmer's creamery and flour mill.

Just north of the town is the immense gas field, which supplies Edmonton, Viking and intermediate towns with natural gas, which is used extensively for heat, light and power. Experts state that it is the best grade of natural gas in the world. Traces of oil have also been found, and a drilling programme is now under way. The soil is most productive, being a chocolate clay loam on a clay subsoil. Wheat yields from 30 to 50 bus. and oats from 50 to 80 bus. to the acre. The crop is handled by six elevators. Stock is handled by the local meat market and the Co-operative Marketing Association.

The religious life of the community is served by the Anglican, United, Roman Catholic and Norwegian Lutheran churches. This is one of the best agricultural districts in the province, offering every advantage to prospective farmers. The population is about 500. Prices of land range from \$15 to \$35 per acre.

WAINWRIGHT

a P.O. and divisional point on the C.N.R. main line, on S21 T44 R6 W4, in Battle River Prov. Elec. Div., 130 miles east of Edmonton. Has C.N. telegraph and express office, Alta. Govt. telephone office, four churches, two schools (public and high), town hall and fire hall, theatre, skating rink, exhibition grounds, hospital, etc., and three producing oil wells, three refineries (two in operation). Auto park, ¼ mile from town. Masonic, Oddfellows and Elks Lodges. Unlimited fire brick clay, sand and gravel. A mixed farming district. Population 1,000.

Buffalo Park, adjoining Wainwright, is 162 square miles and contains 5,500 buffalo, the largest herd in the world. It is a picturesque expanse of country, a series of woodlands, open country, lakes and valleys. In addition to the herd of ancient cattle, there are also a number of wild deer, antelope, elk and moose running at large, and considerable feathered game.

Mayor—M L Forster

WARNER

a P.O., station and incorporated village
on S10 T4 R17 W4, in Lethbridge Prov.
Elec. Div., on the C.P.R. Lethbridge-
Coutts line, 44 miles southeast of Leth-
bridge, 24 miles northwest of Coutts;

and 12 miles northwest of Milk River,
and 20 miles north of the International
border. Has C.P.R. agent and tele-
graphs. C.P. express. Alta. Govt. local
and long distance telephones.

Brick consolidated public school of six
rooms, employing five teachers, with 200
attending school. Warner has the dis-
tinction of establishing the first consoli-
dated school in Alberta. Evangelical,
Anglican and Catholic churches, and the
Lutherans hold services in the Church
of England.

Warner is on the Lethbridge-Sweet
Grass auto road, one of the best auto
roads in the province, and has the best
hotel accommodation south of Leth-
bridge. It also has one of the best
equipped garages.

The soil of the district is very pro-
ductive, growing as high as 60 bushels
of wheat and 75 to 90 bushels of oats
to the acre.

Farming and stock-raising. Popula-
tion of town 400, with 200 farmers in
the district.

WETASKIWIN

a city on the Calgary and Edmonton line of the C.P.R., 42 miles south of the city of Edmonton, and 152 miles north of Calgary. The Winnipeg to Edmonton main line of the C.P.R. also runs through the city. C.P.R. agt., C.P.R. tels., Govt. tels., C.P. express. It is the judicial centre of the Wetaskiwin Judicial District, and has a very fine court house. It has two large public schools and one of the most up-to-date high schools in the province. It has a Customs Office and a Dominion Lands Office. The City owns its electric light and water system, both of which are giving very efficient service. Power is generated by natural gas from wells on city property, adjoining the plant.

Confederation Day, July 1st, 1927, saw Wetaskiwin emerge from its crystals and become a real centre of activity. Its opening of a Memorial Park, its building of an historical monument in the shape of a cairn, and the great and successful historical pageant held at the Fair Grounds marked a milestone in the history of Wetaskiwin. At Tuesday evening's Council meeting Mayor Montgomery asked the City Council to consider the advisability of starting a real live Board of Trade, to be composed of the citizens and members from the surrounding district, with the object at present of meeting once a month to consider what is best for the welfare of the city and district.

This received a hearty response and was at once endorsed by the Council. The formation of a Board of Trade is now in the Mayor's hands and the city will, at last, forge ahead.

Another milestone in the city's history was reached when the City Council granted the request of the City Clerk that he be allowed to start a public library for the city by being authorized to receive and collect dona-

tions of books to form the nucleus of a library.

He was granted permission to store the books in the Council Chamber for the present, and the Mayor and Aldermen passed a resolution authorizing him to receive donations of books from the citizens and that the Council would provide the shelving. It is now up to the citizens to give this laudable action of the City Council their ready support. If every family in the city contribute one book, this should at least provide 650 books for a start. Out of a population of 2250 surely a total of 1000 books would not be difficult to reach, as many have books lying on their shelves that they have read and could spare.

The writer was in Swift Current recently and saw a splendid public library in the city hall building. Red Deer has a large public library attached to its council chamber. Camrose has had one in a building by itself for many years and so has Vegreville, while every town of any consequence in the Province has a library of some sort.

On Dec. 17, 1912, in answer to a petition of 98 electors, a by-law was passed by the city council for the establishment of a public library during the term of office of the late Dr. H. C. R. Walker, then mayor. On writing Mr. E. Roberts, the Secretary-treasurer at that time, he wrote in November last from Stettler, where he now holds office, that a few books were then donated but no further action taken. The Province of Alberta, under the Public Libraries Act, will give a grant of \$300 under certain conditions once a library is established. Mr. E. H. Hill, the city librarian of Edmonton, has on several occasions kindly offered the writer any assistance he can give, and Miss Montgomery, the librarian of the University Extension Department, also very kindly offered her services at any time should we start a library here.

It is up to everyone interested to come forward with a book as a donation towards this end.

All donations will be publicly acknowledged. The city office is ready to receive the books. Who will be first?

It is the centre of a prosperous agricultural district, the soil, which is very fertile, being of a rich black loam from two to three feet deep with clay subsoil. All the smaller grains yield abundantly, and a crop failure is unknown. Mixed farming is carried on extensively in all parts of the district. Free homesteads are still available in the western portion of the district. Population, 2,500.

J. E. FRASER, City Clerk.

WHEELER

a P.O. and hamlet on NE S13 T97 R11
 W4, in Athabasca Prov. Elec. Div., and
 is located on the east bank of the Atha-
 basca river, approximately 54 miles
 north of Fort McMurray, is on the site
 of Fort Pierre au Calumet, an old time
 post of the Northwest Fur Co, aban-
 doned soon after 1821. The Wheeler
 P.O. serves a scattered community of
 fur trappers. The International Bitu-
 men Co., Ltd has a camp in operation
 here the year around and is the most
 prominent thing in the district. There
 are also several embryo fur farms.

YOUNGSTOWN

is situated on S34 T29 R9 W4, in Acadia
Prov. Elec. Div., and Judicial Dist of
Acadia, on the main line of the Calgary-
Saskatoon Division of the C. N. Rys. 228
miles west of Saskatoon and 178 miles
east of Calgary. It is the central point
in a territory serving some 6,000 square
miles, bounded by the Red Deer river on
the south and west and the Sask. bound-
ary on the east and is fast becoming a
place of importance. The slogan of the
town is "Cheap land, average yields,
good schools, everyone a chance."

The town has some 500 population, is
the site for a provincial school of

YOUNGSTOWN—Cont.

agriculture and also the Dominion Government Illustration Station for the area. The agricultural school has a 320 acre demonstration farm in connection which is constantly in use. The town has both public and high schools, five churches represented, United, Anglican, Catholic, Nazarene and Lutheran, five grain elevators, two banks, telephone exchange, newspaper, creamery, three garages, two livery barns, all the implement companies are represented, three hotels, two hardware stores, general stores, electric power plant, two lumber yards, etc. A flourishing Agricultural Society holds a Fair yearly.

Land in the district is the choicest in Alberta and stands high in yield, the average for the current crop being 35 bushels. Land is fair in price and offers an opening for the industrious farmer both for mixed and straight grain, particularly wheat raising. All communications to the secretary of the Board of Trade will be taken care of.

HARRY S. McDONALD,
Secretary Board of Trade.
